Les deux sources de la morale et de la religion Henri Bergson, 2008. Dans *Les deux sources de la morale et de la religion*, son dernier grand livre (1932), Bergson ne se contente pas d'établir la distinction entre le clos et l'ouvert comme critère absolu en morale mais aussi en religion et même dans chaque religion et en politique. Il en recherche le double fondement dans la structure immuable de notre esprit, ce qui est dans les actes imprévisibles des grands hommes de bien ou des mystiques de l'autre. Loin de s'appuyer sur une métaphysique toute faite, ce livre la renouvelle en discutant aussi avec les sciences de son temps, dont la sociologie. Loin de prôner une morale d'usage, il se place au cœur de son époque, loin de cautionner une critique de la démocratie ou de la technique, il les place au centre des choix des hommes. Il est urgent de le relire.

Les Deux Sources de la morale et de la religion Henri Bergson, 2012-01-11. Comment les sociétés se forment-elles ? Pourquoi s'affrontent-elles ? Ces conflits peuvent-ils être vains ? Morale et religion visent-elles seulement à rendre possible la vie en société ou permettent-elles à l'espèce humaine de dépasser sa condition naturelle et de trouver une issue à la violence ? Telles sont quelques-unes des questions au cœur des *Deux Sources de la morale et de la religion* (1932), la somme de philosophie morale et politique de Bergson, qui fut aussi son dernier grand livre. Dans ce texte hanté par le spectre de la guerre et par le développement de la technique, mais aussi guidé par une méditation sur le mysticisme chrétien, Bergson articule l'étude de la société, sa philosophie de la vie. Mettant sa doctrine à l'épreuve, il s'efforce de formuler des principes d'action pour des hommes devenus conscients de la nécessité d'affronter leur destin commun. Et tandis que l'humanité gémirait écrasée sous le poids des progrès qu'elle a faits, il nous rappelle que son avenir dépend d'elle.

Les deux sources de la morale et de la religion Michel Leflot, 2011. *The Two Sources of Morality and Religion* Henri Bergson, 2020-10-31. Henri Bergson inquires into the nature of moral obligation, into the place of religion and the purpose it has served since primitive times, into static religion and its value in preserving man from the dangers of his own intelligence, into dynamic religion or mysticism as a means of producing man's forward leap beyond the limits of the closed society for which nature intended him, and into the open society which is the

particulièrement sur le concept d'obligation qu'il place au cœur des relations interindividuelles. Il pose la distinction restreinte entre société ouverte et société fermée qui sera reprise dans une autre perspective par le philosophe Karl R. Popper. Le dernier chapitre expose la vision de l'avenir de l'auteur et contient le passage clé sur le supplément d'âme dont le corps serait en attente la suite des possibilités extraordinaires que lui confère la technique.

The Story of International Relations, Part Three Jo-Anne Pemberton, 2020-03-16 This book is the third volume in a trilogy that traces the development of the academic subject of International Relations or what was often referred to in the interwar years as International Studies. This volume explores how International Relations progressed through the 20th century looking specifically at World War II from the looming world war to the post War reconstruction in Europe. This one of a kind project takes on the task of reviewing the development of IR aptly published in celebration of the discipline's centenary.

Benjamin, Adorno, and the Experience of Literature Corey McCall, Nathan Ross, 2018-06-27 This collection features original essays that examine Walter Benjamin's and Theodor Adorno's essays and correspondence on literature. Taken together the essays present the view that these two monumental figures of 20th century philosophy were not simply philosophers who wrote about literature but that they developed their philosophies in and through their encounters with literature. Benjamin Adorno and the Experience of Literature is divided into three thematic sections. The first section contains essays that directly demonstrate the ways in which literature enriched the thinking of Benjamin and Adorno. It explores themes that are recognized to be central to their thinking: mimesis, the critique of historical progress and the loss and recovery of experience through their readings of literary authors such as Baudelaire, Beckett and Proust. The second section continues the trajectory of the first by bringing together four essays on Benjamin's and Adorno's reading of Kafka whose work helped them develop a distinctive critique of and response to capitalism. The third and final section focuses more intently on the question of what it means to gain authentically critical insight into a literary work. The essays examine Benjamin's response to specific figures including Georg Büchner, Robert Walser and Julien Green whose work he sees as neglected, undigested or misunderstood. This book offers a unique examination of two pivotal 20th century philosophers through the lens of their shared experiences with literature. It will appeal to a wide range of scholars across philosophy, literature and German studies.
