Literary Lives **Sartre's Existential Psychoanalysis** Mary Edwards, 2022-10-20 Western philosophical orthodoxy places many aspects of other people s lives outside the scope of our knowledge Demonstrating an alternative to this view however this book argues that Jean Paul Sartre s application of his unique psychoanalytic method to Gustave Flaubert is the culmination of his project to show that it is possible to know everything there is to know about another person It examines how Sartre aims to revolutionize our way of thinking about others by presenting his existential psychoanalysis as the means to knowledge of both ourselves and others By so doing it highlights how his determination to solve the longstanding philosophical conundrum about other minds drives him not only to incorporate insights from Descartes Hegel Husserl Freud Marx and Beauvoir into his philosophy but also to supplement and enhance his philosophy through the development and application of a new form of psychoanalysis Sartre s Existential Psychoanalysis integrates for the first time Sartre s psychoanalysis into his overarching philosophical project By offering a critical interrogation of the role his psychoanalytical studies played in the development of his existentialism Mary Edwards uncovers the overlooked philosophical significance of his existential psychoanalysis and brings it into a new and productive dialogue with current research in the fields of philosophy psychology and psychotherapy *Sartre and the Phenomenology of Education* Cameron Bassiri, 2023-11-02 Through an engagement with texts that span the entirety of Sartre s career Sartre and the Phenomenology of Education Education for Resistance provides phenomenological analyses of two primary orientations toward education Cameron Bassiri develops a Sartrean approach to education calling it committed education and argues that such education is ultimately a form of resistance to need scarcity the practico inert and their cultural manifestations Bassiri argues that a genuine

liberating form of education cultivates the imagination instills the appropriate orientation to time in students and ultimately produces a culture of collective imagining He then develops its complementary opposite institutionalized education which is a form of passive acceptance assimilation and oppression Oppressive approaches to education cultivate perception while repressing or instrumentalizing the imagination impose an understanding of time on students and ultimately produce a culture of perception and restricted serialized imagining Through these analyses Bassiri demonstrates the importance of education for the formation of subjectivity highlighting the role that existential psychoanalysis plays in teaching as well as two distinct forms of the phenomenological reduction operative in the respective orientations toward education

Wardman, 1992 This study maintains that Sartre's work and to some extent his life was dominated by the dichotomy of necessity and either freedom or contingency His changing responses to religion art human relationships and politics are explored In politics existentialist subjectivity is needed to guard against the inhumanity of Stalinist pseudoscience Thus Sartre's theatre upholds the values of subjectivity as opposed to historical necessity His Marxism rejects economic determinism and affirms the importance of freedom under capitalism and Stalin men connive at a servitude from which the apocalyptic revolt of the group in fusion is seen as a deliverance Through a critique of Flaubert's misanthropy while recognising his dedication to art Sartre is finally convinced that man at his most elemental is possible In his autobiography he sees himself as no longer a demiurge but an anonymous embodiment of the concrete universal *Incarnation imaginaire* François Noudelmann, 1996 **The Power of**

Consciousness and the Force of Circumstances in Sartre's Philosophy Thomas W.
