The first and second editions of Medical and Veterinary Entomology edited by Gary R Mullen and Lance A Durden published
in 2002 and 2009 respectively have been highly praised and become widely used as a textbook for classroom instruction This
fully revised third edition continues the focus on the diversity of arthropods affecting human and animal health with separate
chapters devoted to each of the taxonomic groups of insects and arachnids of medical or veterinary concern including spiders
scorpions mites and ticks Each chapter includes sections on taxonomy morphology life history and behavior and ecology with
separate sections on those species of public health and veterinary importance Each concludes with approaches to
management of pest species and prevention of arthropod borne diseases The third edition provides a comprehensive source
for teaching medical and or veterinary entomology at the college and university level targeted particularly at upper level
undergraduate and graduate postgraduate programs In addition to its value as a student textbook the volume has appeal to a
much broader audience specialists and non specialists alike It provides a key reference for biologists in general
entomologists zoologists parasitologists physicians public health personnel veterinarians wildlife biologists vector biologists
