Ekanem,2016-09-20 A great many people who want to be writers say that they want to have a career in journalism They may envision themselves going to exotic locales to cover stories While these things do happen to journalists it takes a long time to make your bones before you are sent on any interesting assignments A journalist is someone who reports on timely events Timing is everything to a journalist Whether you write for a periodical or a newspaper you need to make sure that your articles are timely Your purpose is to keep the public as up to date as possible when it comes to news and events that may affect them This is the basic concept of being a journalist You should report on all sides of a story not just take one side even if it appears that one side is right or wrong A good journalist gets all sides of the story prints it and then lets the reader decide based upon the article A good journalist does not make up the reader's mind for them As you continue in your career

you will find your voice when it comes to your writing Do not be surprised if your first articles are rewritten by your editor Another rule that you need to learn when you are starting a career as a journalist is to not fall in love with your own work Do not feel hurt if an editor does not like a phrase in your article or makes some changes They are only doing their job You will soon get to know the editor and they will get to know your style of writing **The NCTJ Essential Guide to Careers in Journalism** Andy Bull,2007-08-10 The National Council for the Training of Journalists NCTJ Guide to Careers in Journalism is the essential resource to securing a job as a journalist on a newspaper or magazine on radio and television or online The book contains full details of over 60 highly respected NCTJ accredited courses which give you exactly the qualifications you need comprehensive outlines of what it will be like as a trainee journalist on newspapers magazines TV radio or a website day in the life accounts from a wide range of young journalists advice quotes comments and warnings from over 100 working journalists a comprehensive listing of potential sources of work experience traineeships and jobs Arts & Humanities Citation Index ,1982 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world s leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals **Careers in Journalism** Jan Goldberg,1999-01-22 Careers in Journalism offers all the information career seekers need to explore and choose a profession and then narrow it down to a job that suits them The book provides an overview of journalism outlines job options and shows how to plan and prepare for a career
