Memes of Translation Andrew Chesterman, 1997-01-01 *Memes of Translation* is a search for coherence in translation theory based on the notion of Memes ideas that spread develop and replicate like genes The author explores a wide range of ideas on translation mapping the meme pool of translation theory with chapters on translation history norms strategies assessment ethics and translator training The aim of the book is to search for a perspective from which the immense variety of ideas about translation can be related The unifying thread is the philosophy of Karl Popper The book proposes the beginnings of a Popperian theory of translation based on the fundamental concepts of norms strategies and values A key idea is that a translation itself is a theory or hypothesis concerning the source text This hypothesis is then subjected to testing refinement and perhaps even rejection just like any other hypothesis

Memes of Translation Andrew Chesterman, 2016-02-25 This revised edition of *Memes of Translation* includes updates that relate the book's themes to more recent research in Translation Studies The book contributes to the debate about whether it is worth seeking a coherent theory of translation by proposing an approach based on norms strategies and values which are all seen as kinds of memes i.e. ideas that spread The meme metaphor allows us to see translation in the context of cultural evolution and also highlights similarities with the philosopher Karl Popper's analysis of another kind of evolution that of scientific knowledge A translation is after all itself a theory a theory about the source text And as Popper stressed theories of all kinds are like nets we make in order to catch something of reality never perfectly but always in the hope of better understanding

Translation Studies on Chinese Films and TV Shows Feng Yue, 2023-01-02 This book explores translation strategies for films and TV programs On the basis of case studies on subtitle translations it argues that translators are expected to take into consideration not only linguistic and cultural differences but also the limits of time and space Based on the editor's experience working as a translator for TV journalist and narrator this book proposes employing editorial translation for TV translation Further in light of statistics on international audiences views on Chinese films it suggests striking a balance between conveying cultural messages and providing good entertainment
