**Alan Turing's Automatic Computing Engine : The Master Codebreaker's Struggle to build the Modern Computer** B. Jack Copeland,2005-04-14 The mathematical genius Alan Turing 1912 1954 was one of the greatest scientists and thinkers of the 20th century Now well known for his crucial wartime role in breaking the ENIGMA code he was the first to conceive of the fundamental principle of the modern computer the idea of controlling a computing machine s operations by means of a program of coded instructions stored in the machine s memory In 1945 Turing drew up his revolutionary design for an electronic computing machine his Automatic Computing Engine ACE A pilot model of the ACE ran its first program in 1950 and the production version the DEUCE went on to become a cornerstone of the fledgling British computer industry The first personal computer was based on Turing s ACE Alan Turing s Automatic Computing Engine describes Turing s struggle to build the modern computer The first detailed history of Turing s contributions to computer science this text is essential reading for anyone interested in the history of the computer and the history of mathematics It contains first hand accounts by Turing and by the pioneers of computing who worked with him As well as relating the story of the invention of the computer the book clearly describes the hardware and software of the ACE including the very first computer programs The book is intended to be accessible to everyone with an interest in computing and contains numerous diagrams and illustrations as well as original photographs The book contains chapters describing Turing s path breaking research in the fields of Artificial Intelligence AI and Artificial Life A Life The book has an extensive system of hyperlinks to The Turing Archive for the History of Computing an on line library of digital facsimiles of typewritten documents by Turing and the other scientists who pioneered the electronic computer [Alan Turing's Electronic Brain](#) B. Jack Copeland,2012-05-24 Well known for this crucial wartime role in breaking the ENIGMA code this book chronicles Turing s struggle to build the modern computer Includes first hand accounts by Turing and the pioneers of computing who worked with him *Behind the Enigma* John Ferris,2020-10-20 The definitive history of GCHQ one of the world s most tight lipped intelligence agencies written with unprecedented access to classified archives For a hundred years GCHQ Government Communications Headquarters has been at the forefront of British secret statecraft Born out of the need to support military operations in the First World War and fought over ever since today it is the UK s biggest intelligence security and cyber agency and a powerful tool of the British state Famed primarily for its codebreaking achievements at Bletchley Park against Enigma ciphers in the Second World War GCHQ has intercepted interpreted and disrupted the information networks of Britain s foes for a century and yet it remains the least known and understood of British intelligence services It has been one of the most open minded too GCHQ has always demanded a diversity of intellectual firepower finding it in places which strike us as ground breaking today and allying it to the efforts of ordinary men and women to achieve extraordinary insights in war diplomacy and peace GCHQ shapes British decision making more than any other intelligence organisation and along with its partners in the Five Eyes

intelligence partnership including the United States National Security Agency has become ever more crucial in an age governed by information technology Based on unprecedented access to documents in GCHQ's archive many of them hitherto classified this is the first book to authoritatively explain the entire history of one of the world's most potent intelligence agencies Many major contemporary conflicts between Russia and the West between Arab nations and Israel between state security and terrorism become fully explicable only in the light of the secret intelligence record Written by one of the world's leading experts in intelligence and strategy Behind the Enigma reveals the fascinating truth behind this most remarkable and enigmatic of organisations

*Cold War, Hot Science* Robert Bud, Philip Gummatt, Science Museum (Great Britain), 1999 Cold War Hot Science presents an authoritative history of post war British defence research as related to the establishments that now form part of the Defence Evaluation and Research Agency DERA The agency includes such well known centres as the Royal Aircraft Establishment at Farnborough the Royal Signals and Radar Establishment at Malvern and the Chemical and Biological Defence Establishment at Porton Down Collectively these have carried out a very high proportion of all the scientific research conducted in Britain since the war Study of these vast but traditionally secretive institutions is vital to understanding science in post war Britain
