Memorandum 2013 September Economics Question Paper:

The Construction of a National Socialist Europe during the Second World War Raimund Bauer, 2019-10-14

Throughout the Second World War the term Europe featured prominently in National Socialist rhetoric. This book reconstructs what Europe stood for in National Socialist Germany, analyses how the interplay of its defining elements changed dependent on the war, and shows that the new European order was neither an empty phrase born out of propaganda nor was it anti-European. Tying in with long-standing traditions of German European völkisch and economic thinking, imaginations of a New Order became a central category in contemporary political and economic decision-making processes, justifying cooperation as well as exploitation, violence and murder.

Preventing the Next Mortgage Crisis Dan Immergluck, 2015-08-20
The great U.S. mortgage crisis was a transformative event that will reverberate for decades across families, neighborhoods, and cities. After years of research on various aspects of the crisis, Dan Immergluck examines what went wrong, identifying the factors that created the fragile housing finance system which provided fertile ground for calamity. He also examines the federal response to the crisis, including who benefitted most from the response and how a more effective and fair response could have been formulated. To reduce the incidence of future crises, Immergluck provides a pathway for building a more stable and fair housing finance system that would be less vulnerable to the booms and busts of global finance. Housing finance helps determine access to stable, decent, quality, affordable housing and also affects the geography of housing and educational opportunities. Thus, housing markets shape our communities, our neighborhoods, and our social and economic opportunities. Immergluck's analysis and formulation of a way forward will be of particular interest to those concerned with urban form, neighborhood change and stability, and urban planning and policy, as well as those interested in housing and mortgage markets more generally.

Competition Law Richard Whish, David Bailey, 2015

Macroeconomic Analysis in the Classical Tradition James C. W. Ahikpor, 2021-03-22
Macroeconomic Analysis in the Classical Tradition explains how the influence of Keynes's macroeconomics, including his changed definitions of some key macroeconomic concepts, has impeded many analysts' ability to readily resolve disputes in modern macroeconomics. Expanding on his earlier work, *Macroeconomics without the Errors of Keynes* (2019), the author delves into more aspects of macroeconomic theory and argues for a revision of Keynes's contribution to the field. Attention is given to theories and concepts such as Say's Law, the quantity theory of money, the liquidity trap, the permanent income hypothesis, 100% money, and the Phillips curve analysis. The chapters work to build a careful critique of Keynes's economics and make the case that the classical macroeconomics of Smith, Say, Ricardo, Mill, and others could help resolve present-day policy disagreements and redefine macroeconomic

priorities This book provides essential reading for advanced students and scholars with an interest in the foundations of Keynes's theories and current debates within macroeconomic policy

Dream Hoarders Richard V. Reeves, 2017-05-23

Dream Hoarders sparked a national conversation on the dangerous separation between the upper middle class and everyone else Now in paperback and newly updated for the age of Trump Brookings Institution senior fellow Richard Reeves is continuing to challenge the class system in America In America everyone knows that the top 1 percent are the villains The rest of us the 99 percent we are the good guys Not so argues Reeves The real class divide is not between the upper class and the upper middle class it is between the upper middle class and everyone else The separation of the upper middle class from everyone else is both economic and social and the practice of opportunity hoarding gaining exclusive access to scarce resources is especially prevalent among parents who want to perpetuate privilege to the benefit of their children While many families believe this is just good parenting it is actually hurting others by reducing their chances of securing these opportunities There is a glass floor created for each affluent child helped by his or her wealthy stable family That glass floor is a glass ceiling for another child Throughout Dream Hoarders Reeves explores the creation and perpetuation of opportunity hoarding and what should be done to stop it including controversial solutions such as ending legacy admissions to school He offers specific steps toward reducing inequality and asks the upper middle class to pay for it Convinced of their merit members of the upper middle class believes they are entitled to those tax breaks and hoarded opportunities After all they aren't the 1 percent The national obsession with the super rich allows the upper middle class to convince themselves that they are just like the rest of America In Dream Hoarders Reeves argues that in many ways they are worse and that changes in policy and social conscience are the only way to fix the broken system

India and Bilateral Investment Treaties Prabhash Ranjan, 2019-04-24

As a consequence of being sued by more than 20 foreign investors India terminated close to 60 investment treaties and adopted a new Model Bilateral Investment Treaty BIT purportedly to balance investment protection with the host State's right to regulate This book is a critical study of India's approach towards BITs and traces their origin evolution and the current state of play It does so by locating them in India's economic policy in general and policy towards foreign investment in particular India's approach towards BITs and policy towards foreign investment were consistent with each other in the periods of economic nationalism 1947-1990 and economic liberalism 1991-2010 However post 2010 India's approach to BITs has become protectionist while India's foreign investment policy continues to be liberal To balance investment protection with the State's right to regulate India needs to evolve its BIT practice based on the twin framework of international rule of law and embedded liberalism

Streaming and Copyright Law Lasantha Ariyaratna, 2022-09-05

This book examines the challenges posed to Australian copyright law by streaming from the end user perspective It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright By critically examining the technological functionality of streaming and the failure of copyright

enforcement against the masses it argues for strengthening end user rights The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings cinematographic films and radio and television broadcasts is used on the internet Superseding the conventional method of downloading using streaming to access digital content has challenged copyright law because it is not clear whether end user acts of streaming constitute copyright infringement These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming It is uncertain whether exercising the right of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part Conversely the fair dealing defence in Australia cannot be used aptly to defend end users acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing for the purposes of criticism or review news reporting parody or satire or research or study When considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing digital content even if they lack any knowledge about the content s infringing nature Moreover the grey areas in circumventing geo blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo blocking End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement Despite the intricacies between copyright and access to digital content the recently implemented website blocking laws have emboldened copyright owners while suppressing end users access to digital content This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions

International Trade with the Middle East and North Africa Hossein Esmaeili,Vivienne Brand,Susan L. Karamanian,2024-06-28 This book provides an interdisciplinary analysis of trade relations with the Middle East and Arab countries from the perspectives of law business policy and culture in the Middle East and the Arab world and their interaction with the wider world particularly Western countries The rapidly evolving economy of the Middle East and the Arab region is undergoing significant change and establishing modern foreign ownership law robust company business and investment regulations modern legal professions while keeping its basic traditional and Islamic principles This book covers a number of important theoretical and practical aspects of commercial and trade relationships and law It examines case studies of trade and investment relations between Arab and Middle Eastern countries and Western Countries such as Australia UK and US touching on such topics as corporation law arbitration and foreign judgments future mobility and disruptive technology law financial services law charity law trusts and cultural law Exploring emerging trade and investment ties between Arab and Middle Eastern countries and Western countries it will be of interest to students academics and practitioners with an interest in international trade and investment law
