enhanced especially throughout the most recent stages of industrial reforms Second enterprises are increasingly participating along with universities and research centers in a concerted and historically unparalleled effort to dramatically upgrade China's capacity to engage in indigenous innovation As a result China's National Innovation System has been growing and strengthening at a pace much faster than that of the national economy as a whole The book also presents a speculative and provisional perspective on the validity and meaning of the claim that the country's socioeconomic system is indeed a form of socialism with Chinese characteristics It will be of interest to students and scholars researching China politics and development economics Orthopaedic Knowledge Update Michael Baumgaertner, Paul Tornetta, 2005 Dramatic advances in acute fracture care as well as contemporary issues involving the delivery reimbursement and evaluation of trauma care make the publication of this 3rd edition of OKU Trauma timely and necessary The authors have chosen to enhance the exclusively anatomic organization of previous editions by creating three entirely new sections that address special trauma considerations the delivery and assessment of fracture care and managing the sequelae of acute injury
