Amy Ione,2002 *Nature Exposed to our Method of Questioning* explores how we create our cultural assumptions about
personhood culture and nature The following four questions frame the study 1 How do premodern modern and postmodern
perspectives in art religion philosophy and science differ and interpenetrate 2 What does it mean to integrate questions ideas
values and beliefs as we create our living environments 3 What are symbols and metaphors and how do they contribute to the
human dialogue 4 How do purpose intention and consciousness foster creativity and influence our perceptions of human
living Three conclusions emerged in exploring these questions 1 Models of earlier eras are not comprehensive enough to
speak about the nature of our contemporary environment 2 Human models are creative human inventions 3 We benefit in
defining open models rather than models which attempt to be universal in an all inclusive fashion MIMI , *School*
