The Power of the Mine Sudeshna Ghosh Banerjee,Zayra Romo,Gary McMahon,Perrine Toledano,Peter Robinson,Inés Pérez Arroyo,2014-12-09 The mining industry could play a key role in Africa s energy sector since it requires power in large quantity and reliable quality to run its processes The integration of mining with power system development with appropriate risk mitigation mechanisms could bring a win win solution to utilities mines and people at large

The Politics of the Near Jérôme Tournadre,2022-05-17 The Politics of the Near offers a novel approach to social unrest in post apartheid South Africa Keeping the noise of demonstrations barricades and clashes with the police at a distance this ethnography of a poor people s movement traces individual commitments and the mainsprings of mobilization in the ordinary social and intimate life of activists their relatives and other township residents Tournadre s approach picks up on aspects of activists lives that are often neglected in the study of social movements that help us better understand the dynamics of protest and the attachment of activists to their organization and its cause What Tournadre calls a politics of the near takes shape through sometimes innocuous actions and beyond the separation between public and domestic spheres By mapping the daily life of Black and low income neighborhoods and the intimate domain where expectations and disappointments surface The Politics of the Near offers a different perspective on the rainbow nation a perspective more sensitive to the fact that three decades after the end of apartheid poverty and race are still as tightly interwoven as ever
