Big Green Purse Diane Maceachern, 2008-02-28 Read Diane McEachern's posts on the Penguin Blog Protecting our environment is one of the biggest issues facing our planet today But how do we solve a problem that can seem overwhelming even hopeless As Diane MacEachern argues in *Big Green Purse* the best way to fight the industries that pollute the planet thereby changing the marketplace forever is to mobilize the most powerful consumer force

in the world women MacEachern's message is simple but revolutionary. If women harness the power of their purse and intentionally shift their spending money to commodities that have the greatest environmental benefit they can create a cleaner greener world. Spirited and informative this book targets twenty commodities: cars, cosmetics, coffee, food, paper products, appliances, cleansers, and more, where women's dollars can make a dramatic difference. Provides easy-to-follow guidelines and lists so women can choose the greenest option regardless of what they're buying, along with recommended companies they should support. Encourages women to spend wisely by explaining what's worth the premium price, some green products cost what's not, and when they shouldn't spend money at all, and differentiates between products that are actually green and those that are simply marketed as ecofriendly. Whether readers want to start with small changes or are ready to devote the majority of their budget to green products, MacEachern offers concrete and immediate ways that women can take action and make a difference. Empowering and enlightening, *Big Green Purse* will become the green shopping bible for women everywhere who are asking "What can I do?"
