Law And Power In The Making Of The Roman Commonwealth:

Law and Power in the Making of the Roman Commonwealth Luigi Capogrossi Colognesi, 2018-11-08 With a broad chronological sweep this book provides an historical account of Roman law and legal institutions which explains how they were created and modified in relation to political developments and changes in power relations It underlines the constant tension between two central aspects of Roman politics the aristocratic nature of the system of government and the drive for increased popular participation in decision making and the exercise of power The traditional balance of power underwent a radical transformation under Augustus with new processes of integration and social mobility brought into play Professor Capogrossi Colognesi brings into sharp relief the deeply political nature of the role of Roman juridical science as an expression of aristocratic politics and discusses the imperial jurists fundamental contribution to the production of an outline theory of sovereignty and legality which would constitute together with Justinian s gathering of Roman legal knowledge the most substantial legacy of Rome

Of the law of nature and nations ... Translated into English [by Basil Kennet and others] ... With a short introduction Samuel Freiherr von Pufendorf, 1703

Leviathan, or, The matter, forme, & power of a common-wealth ecclesiasticall and civill Thomas Hobbes, 1887

Of the Law of Nature and Nations Samuel Freiherr von Pufendorf, 1703 In 1662 Pufendorf was appointed to the first modern professorship in natural law at the University of Heidelberg In 1670 he became professor of natural law at the University of Lund in Sweden First published in 1672 this is his principle work and a landmark in the history of natural and international law Beginning with a consideration of fundamental legal ideas and their various divisions Pufendorf proceeded to a discussion of the validity of customs the doctrines of necessity and innate human reason The work is significant in part because it developed principles introduced by Grotius and Hobbes Unlike Hobbes Pufendorf argued that peace not war was the state of nature and he proposed that international law was not restricted to Christendom
