Units of Study for Teaching Writing, Grades 3-5 Lucy Calkins, Marjorie Martinelli, Ted Kesler, Cory Gillette, M. Colleen Cruz, Medea McEvoy, Mary Chiarella, Kathy Collins, 2006 Lucy Calkins and her Colleagues Take Writing Instruction to a Higher Level. Is *Units of Study for Teaching Writing Grades 3-5* aligned with *Units of Study for Primary Writing K-2*? Yes. These 2 resources are perfectly aligned. While offering a greater level of sophistication and a whole new set of units, *Units of Study for Teaching Writing Grades 3-5* employs many of the same features that made *Units of Study for Primary Writing* so effective and popular. Both series are built around sequential units of study representing 4 to 6 weeks of instruction. Each unit of study contains 15 to 18 sessions. And each of these sessions is built on a coherent framework of regular features that include an introduction, a 10-minute minilesson, recommendations for conferring, share time suggestions for tailoring the lessons, suggest homework, and more. In addition, instruction in both series is supported by a side column rich with Lucy's coaching commentary and samples of real student work. Most importantly, both series were developed, piloted, and refined by Lucy Calkins and her colleagues from the Teachers College Reading and Writing Project. What special features are included in this resource? Each session has one of three new features: **Mechanics** emphasizes the important language conventions that readers expect and that students need to master to become effective writers. **Assessment** helps teachers look at a piece of writing with a growth line in mind: name what the child can do and plan the next instructional step. **Collaborating with Colleagues** offers ideas for building a community of writing instructors to help support and refine your practice. In addition, a new **Homework** and a special **In Your Class** section help you tailor the minilessons even more carefully to the specific needs of your students.

Using Art to Teach Writing Traits Jennifer Klein, Elizabeth Stuart Whitehead, 2018-11-23 Our purpose for writing this book is so that children can become better communicators by expressing their thoughts, feelings, and ideas. The ability to communicate is a universal goal in society. If children can better communicate in their speaking and writing, clearer, more precise messages will be received, and communication around the world will be strengthened. The writing traits are a way for teachers and children to discuss and analyze written pieces for strengths and needs in order to communicate their thoughts and express their ideas through writing in a way that touches their audience. Adding art into this established process will allow children to learn about the writing traits in a text-free environment before applying the traits to their own writing. Children will learn how artists communicate their thoughts, feelings, and ideas and how the traits that writers use are similar to the traits that artists use in order to better communicate, express themselves, and process the world around them. In addition, we will discuss the revision and editing process. Art is an exciting and engaging subject for students. This book will allow children to transfer their knowledge of how artists use the traits to how writers use the traits and then to how they can utilize the traits in their own writing to better communicate with their audience and process the world around them.
