

MARK SCHEME for the October/November 2015 series

0580 MATHEMATICS

0580/42

Paper 4 (Extended), maximum raw mark 130

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2015 series for most Cambridge IGCSE[®], Cambridge International A and AS Level components and some Cambridge O Level components.

Marking Scheme 0610 11 O N 14:

The Most Dangerous Man in America John K. Wilson, 2025-10-16 John K Wilson the author of *President Trump Unveiled* tackles the ideologies of America's most notorious conservative radio talk show icon in *The Most Dangerous Man in America*. Rush Limbaugh's Assault on Reason. Rush Limbaugh is the most prominent figure in the conservative movement with millions of listeners every week on more than six hundred stations, a larger media platform than almost any other individual in the nation. And this is why he is so dangerous. Despite refusing to uphold even the most basic standards of journalism, Rush has been given an extensive wide-reaching platform with which to spew his venom. And spew it he does. In this book, author John K. Wilson uses the most damning evidence of all: Rush's own words to deliver the ultimate indictment of Limbaugh's bankrupt ideology and how it embodies the decline of the conservative movement. Wilson catalogs the world according to Rush, from the political conspiracies to his disdain for scientific evidence and apparent love of racist, sexist, and homophobic stereotypes, and shows how the radio personality poisons any rational political rhetoric with an endless stream of slurs, lies, and intimidation. Most revealingly, the author demonstrates how Limbaugh's blustering, baseless proclamations and love for savage personal attacks have had a chilling effect on both parties as he viciously targets not only liberals but also any Republican who dares question one of his conclusions. Meanwhile, Rush's viselike grip on the political arena has created a media monster so powerful that even liberal commentators are forced to engage with him and his polarizing discourse. *The Most Dangerous Man in America* reveals Rush Limbaugh to be just that. No matter what you thought about the man before, you will never feel the same way about him again. **Reeds Western Almanac 2017** Perrin Towler, Mark

Sir Chay Blyth. [The Oxford Handbook of Comparative Constitutional Law](#) Michel Rosenfeld, András Sajó, 2012-05-17 The field of comparative constitutional law has grown

immensely over the past couple of decades Once a minor and obscure adjunct to the field of domestic constitutional law comparative constitutional law has now moved front and centre Driven by the global spread of democratic government and the expansion of international human rights law the prominence and visibility of the field among judges politicians and scholars has grown exponentially Even in the United States where domestic constitutional exclusivism has traditionally held a firm grip use of comparative constitutional materials has become the subject of a lively and much publicized controversy among various justices of the U S Supreme Court The trend towards harmonization and international borrowing has been controversial Whereas it seems fair to assume that there ought to be great convergence among industrialized democracies over the uses and functions of commercial contracts that seems far from the case in constitutional law Can a parliamentary democracy be compared to a presidential one A federal republic to a unitary one Moreover what about differences in ideology or national identity Can constitutional rights deployed in a libertarian context be profitably compared to those at work in a social welfare context Is it perilous to compare minority rights in a multi ethnic state to those in its ethnically homogeneous counterparts These controversies form the background to the field of comparative constitutional law challenging not only legal scholars but also those in other fields such as philosophy and political theory Providing the first single volume comprehensive reference resource the Oxford Handbook of Comparative Constitutional Law will be an essential road map to the field for all those working within it or encountering it for the first time Leading experts in the field examine the history and methodology of the discipline the central concepts of constitutional law constitutional processes and institutions from legislative reform to judicial interpretation rights and emerging trends
