Indicators for Water Supply Services Helena Alegre, Jaime M. Baptista, Enrique Cabrera Jr, Francisco Cubillo, Patricia Duarte, Wolfram Hirner, Wolf Merkel, Renato Parena, 2016-09-15 The IWA Performance Indicator System for water services is now recognized as a worldwide reference Since its first appearance in 2000 the system has been widely quoted adapted and used in a large number of projects both for internal performance assessment and metric benchmarking Water professionals have benefited from a coherent and flexible system with precise and detailed definitions that in many cases have become a standard The system has proven to be adaptable and it has been used in very different contexts for diverse purposes The Performance Indicators System can be used in any organization regardless of its size nature public private etc or degree of complexity and development The third edition of Performance Indicators for Water Supply Services represents a further improvement of the original manual It contains a reviewed and consolidated version of the indicators resulting from the real needs of water companies worldwide that were expressed during the extensive field testing of the original system The indicators now properly cover bulk distribution and the needs of developing countries and all definitions have been thoroughly revised The confidence grading scheme has been simplified and the procedure to assess the results uncertainty has been significantly enhanced In addition to the updated contents of the original edition a large part of the manual is now devoted to the practical application of the system Complete with simplified step by step implementation procedures and case studies the manual provides guidelines on how to adapt the IWA concepts and indicators to specific contexts and objectives This new edition of Performance Indicators for Water Supply Services is an invaluable reference source for all those concerned with managing the performance of the water supply industry including those in the water utilities as well as regulators policy makers and financial agencies

**Indicators in Perspective** Wouter van den Berghe, 1997 Indicators are used in quite different ways in vocational education and training from control and accountability to performance and quality purposes A classification model has been proposed in which many indicators can fit It is based on two important dimensions of indicators 1 the message relating to the information content meaning and signification of the indicator and 2 the purpose relating to the function and use of the indicator Four main areas on the scale for the message dimension are as follows exclusively descriptive management and policy performance and quality Three areas on the scale for the purpose dimension are indicators used for analysis used for communication and with a normative purpose The two main driving forces for the use of indicators are public authorities and institutions International and European achievements in the work on quality indicators are illustrated by the following the Organization for Economic Cooperation and Development's INES Indicators of National Education System project the Eurostat key data and the European Training Foundation key indicators on vocational education and training VET At the level of VET institutions a wide range of performance and quality indicators have been developed across Europe in the Netherlands Italy Portugal Denmark and Western Australia The advantages of using quality indicators can be achieved only if 10 conditions 5 design requirements and 5 requirements for processing and use are met
