

Preface

Included in this manual are answers to most of the exercises in the textbook *Data Structures and Algorithm Analysis in C*, second edition, published by Addison-Wesley. These answers reflect the state of the book in the first printing.

Specifically omitted are likely programming assignments and any question whose solution is pointed to by a reference at the end of the chapter. Solutions vary in degree of completeness; generally, minor details are left to the reader. For clarity, programs are meant to be pseudo-C rather than completely perfect code.
