Modern Statutory Interpretation Jeffrey Barnes, Jacinta Dharmananda, Eamonn Moran, 2023-01-10 Modern Statutory Interpretation is an original clear coherent and research based account of contemporary Australian statutory interpretation It provides a comprehensive coverage of statutory interpretation law legislative drafting the parliamentary process the modern history of interpretation sources of doubt and interpretation techniques *Insurance in European VAT* Marta Papis-Almansa, 2016-11-30 Insurance constitutes a significant part of the financial services sector and is one of the foundations of modern economy and society In the design of tax laws however whether and how to tax insurance is a complex issue that has become particularly controversial in the area of value added tax VAT In the European Union as in most of the world insurance is exempt from VAT but New Zealand and Australia do not follow this practice Given that New Zealand's simple comprehensive goods and services tax GST called the world's purest value added tax and its modified Australian version do not appear to suffer from the shortcomings in efficiency and effectiveness that plague European VAT a comparison of the two systems is in order This book is not only the first comparative in depth study of the treatment of insurance in the two systems but also the first comprehensive legal research devoted to the treatment of insurance in EU VAT published in English Among the underlying issues and topics treated by the two systems covered are the following who has a right to deduct input VAT in relation to supplies inherent in insurance arrangements and to what extent what constitutes a supply of insurance and consideration for such a supply what transactions fall within the scope of the VAT Directive's exemption for insurance and drawing a line between insurance and saving The analysis is grounded in a methodology in which concepts of European VAT are compared with concepts performing the same function in the Australian and New Zealand GST laws The author concludes with proposals for reform in EU VAT in the light of experience in these two major non EU countries Given that it has been proven that exemptions from VAT such as insurance cause a significant number of economic distortions and inefficiencies this study represents a major contribution to a topical debate in European VAT law It will be welcomed by taxation authorities interested policymakers practitioners and scholars not only in Europe but worldwide Sources of State Practice in International Law Ralph Gaebler, Alison Shea, 2014-06-05 Sources of State Practice in International Law is a descriptive bibliography of both electronic and printed sources of information containing the text of treaties and the record of diplomatic activity of important jurisdictions around the world As such it includes an up to date description of national treaty portals and other valuable Internet based sources At the same time it also includes descriptions of printed sources providing access to treaties and official diplomatic documentation difficult to locate in standard compilations In addition this work includes a narrative section for each jurisdiction summarizing issues related to treaty succession and treaty implementation in municipal law Sources of State Practice in International Law is an indispensable reference for researchers in both international law and international relations Contributors Jennifer Allison Martin Bouda Rob Britt Talia Einhorn Victor Essien
