Conversion in the Age of Pluralism Giuseppe Giordan, 2009 The theme of conversion constitutes a privileged point to study the framework linking an individual to the sociocultural contexts in which he or she is included Changes in personal biographies and sociocultural change are interwoven when we speak of conversion values speech norms behaviors beliefs lifestyles interests everything is open to potential debate when an individual converts Conversion is especially developed here through a connection with the dynamics of pluralism which appears to be the most peculiar cultural characteristic of our era what does it mean to speak of conversion in a time in which it seems that the presumption of only one true truth no longer exists while instead many

different truths live together each with its own judgment criteria
