Lesión 1: Personalizando su Power Point

El Ambiente de PowerPoint

Explorando la Ventana de PowerPoint

Cuando usted abre PowerPoint, se crea una nueva presentación y una diapositiva en blanco aparece en la ventana de PowerPoint. La diapositiva tiene algunas casillas en las que puede insertar un título o subtítulo.

El sistema de menú en Cinta con pestañas es el camino para ingresar a varios comandos de PowerPoint. Si usted ha usado versiones anteriores de PowerPoint, notará que el sistema en Cinta reemplaza el menú tradicional. Por encima de la Cinta, en la esquina superior izquierda está el **Botón de Microsoft Office**. Desde aquí, usted puede ingresar a opciones importantes como Nuevo, Guardar, Guardar Como e Imprimir. Predeterminadamente la **Barra de Herramientas de Acceso Rápido** está al lado del Botón de Microsoft Office, e incluye comandos como Deshacer y Rehacer.

Al lado izquierdo de la ventana, usted verá un **panel de tareas** con dos pestañas o fichas llamadas Diapositivas y Esquema, las cuales aparecen predeterminadamente. En la parte inferior derecha de la pantalla encontrará comandos para visualizar la presentación (Normal, Clasificador de diapositivas, Presentación con Diapositivas) y la herramienta del zoom.

Agriculture in Cuba Sinan Koont, 2016-12-07 Pushed by necessity but enabled by its existing social and educational policies Cuba in the 1990s launched the most extensive program of urban sustainable agriculture in the world. This study is to date the only book length investigation in either English or Spanish of this important national experiment in transforming the environmental, economic and social nature of today's dominant system of producing food. At Campbell University of Utah. As large scale industrial agriculture comes under increasing scrutiny because of its petroleum and petrochemical based input costs and environmentally objectionable consequences, increasing attention has been focused on sustainable local and agro ecological techniques in food production. Cuba was forced by historical circumstances to be one of the pioneers in the massive application of these techniques. After the demise of the Soviet Union in the early 1990s Cuba was left without access to external support needed to carry on with industrial agriculture. The economic crisis led the country to reconsider their former models of resource management. Cuba retooled its agricultural programs to focus on urban agriculture, sustainable, ecologically sound farming close to densely populated areas. Food now takes far less time to get to the people who are now better nourished because they have easier access to whole foods. Moreover, urban farming has become a source of national pride. Cuba has one of the best urban agriculture programs in the world with a thousand fold increase in urban agricultural output since 1994. Sinan Koont has spent the last several years researching urban agriculture in Cuba, including field work at many sustainable farms on the island. He tells the story of why and how Cuba was able to turn to urban food production on a large scale with minimal use of chemicals, petroleum and machinery and of the successes it achieved along with the continuing difficulties it still faces in reducing its need for food imports. Sinan Koont is associate professor of economics at Dickinson College. A volume in the series Contemporary Cuba edited by John M Kirk. *Powerpoint 2007* Equipo
