

## **C Series jaws go with every application**

With hard rock or recycling materials, in gravel production or in mining, you will find the right answers with the C Series jaw crushers. We offer a complete selection of optimized jaw profiles to best suit different applications.

C Series jaw crushers can be as easily assembled on stationary plants as well as on mobile tracked or wheeled plants. Their modular, pinned and bolted frame design and compact size guarantee excellent transportability, versatile installation and short set-up time wherever you need to crush.

But don't take our word for it; talk to our many satisfied customers around the world where Nordberg's C Series jaw crushers have been disassembled, moved and then re-assembled in a variety of crushing sites, including underground mining applications.

## **Versatile for special crushing tasks**

For special crushing applications, Metso Minerals has developed several devices to meet unique customer needs. A good example is the optional intermediate plate that is installed behind the fixed jaw for occasions when you need to change the nip angle. This enables crushing to start higher in the chamber, which optimizes the jaw wear pattern.

## **Choose the right C Series jaw with Bruno**

Metso Minerals' innovative Bruno process simulation software lets you choose the right C Series jaw crusher for your particular crushing application. Just tell Bruno what rock type, feed gradation and machine you want to use, and Bruno will simulate the expected production capacities and gradation curves. Bruno software has already become a proven tool in the crushing industry.

For your next primary crushing application - take a closer look at the Nordberg C Series jaw crusher - the world's favourite jaw crusher.

*Initially developed for tough Scandinavian hard rock conditions, C Series jaw crushers crush even the hardest feed materials efficiently.*

*C Series jaw crushers, with their pinned and bolted design, are easy to transport and manoeuvre even in narrow underground mining applications.*

*The extra-wide C3055 assembled on a portable, fully mobile crushing plant.*

*The newest member of the C Series jaw crusher family, the C105, is the key feature in the track-mounted Nordberg LT1055 mobile crushing plant.*

*SME Mineral Processing and Extractive Metallurgy Handbook* Courtney A. Young, 2019-02-01 This landmark publication distills the body of knowledge that characterizes mineral processing and extractive metallurgy as disciplinary fields. It will inspire and inform current and future generations of minerals and metallurgy professionals. Mineral processing and extractive metallurgy are atypical disciplines requiring a combination of knowledge, experience, and art. Investing in this trove of valuable information is a must for all those involved in the industry: students, engineers, mill managers, and operators. More than 192 internationally recognized experts have contributed to the handbook's 128 thought-provoking chapters that examine nearly every aspect of mineral processing and extractive metallurgy. This inclusive reference addresses the magnitude of traditional industry topics and also addresses the new technologies and important cultural and social issues that are important today. Contents: Mineral Characterization and Analysis; Management and Reporting; Comminution; Classification and Washing; Transport and Storage; Physical Separations; Flotation; Solid and Liquid Separation; Disposal; Hydrometallurgy; Pyrometallurgy; Processing of Selected Metals; Minerals and Materials. **Innovative**

**Process Development in Metallurgical Industry** Vaikuntam Iyer Lakshmanan, Raja Roy, V. Ramachandran, 2015-10-26 This book describes the phases for innovative metallurgical process development from concept to commercialization. Key features of the book include: Need for process innovation; Selection and optimization of process steps; Determination of the commercial feasibility of a process including engineering and equipment selection; Determination of the environmental footprint of a process; Case study examples of innovative process development. *Advances in Occupational, Social, and Organizational Ergonomics* Gavriel Salvendy, Waldemar Karwowski, 2010-06-17 Worldwide the attention for health innovation and productivity is increasing. The need for knowledge and its applications is large, and this book contributes to knowledge development as well as its application. The content varies from the effect that a new office interior has on its occupants to the most efficient design for a glove. It examines topics as diverse as the facilitation of human interaction through workplace design and the improvement of virtual reality applications. Its 90 articles represent 24 countries on five continents.
