Manual Openoffice Base:

Comdex Linux and Open Office Course Kit (2008 Edition) w/CD ,2004-12-18 Training Kit for Linux Fundamentals
OpenOffice Writer Calc Impress Draw GIMP Internet No previous computer knowledge required Unique 3 Stage Self learning System with CD The book is your first stage in learning All the concepts are explained to you in clear simple language along with hundreds of illustrations and graphics Unlike in the other books your learning doesn't stop here Here you can actually practice what you have learnt To do this move to the next mode Practical Research and Evaluation Lena Dahlberg,Colin McCaig,2010-04-22 This book is a starter DIY text for practitioners who are looking to conduct evaluation studies and research as part of their own professional practice The growing emphasis on evidence based practice means that there is an increasing need for practitioners to have at least a basic understanding of research be aware of methodological pitfalls and to be updated on new methods This book provides a practical user friendly guide to social science research methods for professionals who have benefited from little if any formal research methods training but find themselves in a role that requires them to read and understand complex research findings and carry out their own research as part of their professional practice Practical Research and Evaluation is aimed at practitioners working in education health social care and community work Many in this market are non graduates or are those whose study did not contain a research element but are required to know how research works This book has three main aims which will benefit this audience to enable readers to carry out small scale research projects of their own provide them with the basic understanding necessary to commission research and enable them to better understand and evaluate critically research reports This book is designed specifically for Do it Yourself researchers working in the public or voluntary sectors It is accessible and relevant to practitioners uses non technical language wherever possible and employs grounded examples practical tips checklists and readings lists throughout
