Macroeconomics A European Text 6th Edition:

IS-LM and Modern Macroeconomics Warren Young, Ben-Zion Zilberfarb, 2012-12-06 IS LM is perhaps the prime example of cognitive dissonance in economics and is problematic to many economists. On the one hand the IS LM model is still taught by many academic economists or they use it to derive the AD AS approach. On the other hand the same economists realize the limitations of the basic IS LM model and would not now use it for policy analysis as they did in the past. The distinction between pedagogical and analytical efficacy is made by all the authors in this volume regarding the IS LM model. Indeed even those who would reject using the model for modern policy analysis still see the basic model as useful for teaching purposes. Moreover in an augmented form some of the authors in this volume would even see fit to use IS LM for modern policy analysis. As will be seen therefore the IS LM model is not yet dead. Rather the model's plasticity has enabled it to undergo a metamorphosis into augmented form enabling its continuing utilization in economics accordingly. **EBOOK**

Debt Restructuring Mechanism for Sovereigns Christoph G Paulus, 2014-12-01 The Eurozone crisis which started in spring 2010 as a Greek budget crisis has alerted Europeans that the issue of defaulting sovereigns is not one reserved just for the poor and poorest countries on this globe. The crisis painfully amplified that developed countries too might be hit by this phenomenon. To be sure this insight is far from novel: the history of defaulting states reaches back into history for at least two millennia. And yet lawyers have surprisingly abstained more or less completely from discussing this subject and developing possible solutions. Beginning with the Argentina crisis in 2001 this neglect began to vanish to a certain degree.

and this movement got some momentum in 2010 by the Eurozone crisis The present book collects contributions from authors most of whom have participated in a conference on this issue in January 2012 at the Humboldt Universit t zu Berlin The presentations thus provide a unique overview of the present discussion both from an economic and legal perspective
