

AP Macroeconomics Ultimate Guide

Unit 1: Basic Economic Concepts

Let's have a quick overview of what economics is all about!

Economics

- The study of how people, firms, and societies use their scarce productive resources to best satisfy their unlimited material wants.
- It is the systematic study of choice.
- In the realm of economics, all resources around us are considered to be limited; even the most basic things which exist around us like air or water.

Now, having an overall idea of what economics is all about, it's time to dive into some crucial concepts:

1.1 Scarcity

- All factors of production are scarce; therefore, the production of goods and service are also scarce.
- The economic problem states however that our needs are unlimited and as mentioned earlier, the resources available are scarce.

Macroeconomics V/s Microeconomics

- **Macroeconomics:** with macroeconomics, we consider the big picture– the nation's economy as a whole. E.g., would changes to the money supply have an effect on country A's imports and export?
- **Microeconomics:** microeconomics filters our scope to individuals in an economy while keeping the overall economy in mind.

Resources or Factors of Production

- **Labor** – Human effort and talent, physical and mental. This can be augmented by education and training (human capital).
- **Land or natural resources** – Any resource created by nature. This may be arable land, mineral deposits, oil and gas reserves, or water.
- **Physical capital** – Human-made equipment like machinery as well as buildings, roads, vehicles, and computers.
- **Entrepreneurial ability** – The effort and know-how to put the other resources together in a productive venture.

Organizations of Society

- **Tradition** – Tied to the evolution of economics, and it is related to subsistence and tribal life.

S Ben Porath

Macroeconomics Unit 7 Open Economy Study Guide:

AP Macroeconomics Crash Course Jason Welker, 2011-10-13 REA's AP Macroeconomics Crash Course is the first book of its kind for the last minute student or any AP student who wants a quick refresher on the course. Written by an AP Macroeconomics teacher, the targeted review chapters prepare students for the test by only focusing on the important topics tested on the AP Macroeconomics exam. The easy-to-read review chapters in outline format cover everything AP students need to know for the exam: basic economic concepts, economic performance, inflation, price determination, unemployment, economic growth, and international trade and finance, and more. The author also includes must-know key terms all AP students should know before test day. With our Crash Course, students can study the subject faster, learn the crucial material, and boost their AP score all in less time. The author provides key strategies for answering the multiple choice questions so students can build their point scores and get a 5.

Open-Economy Monetary Economics M.L. Burnstein, 1989-06-18 The financial markets have turned open economy monetary economics on its head. This book explains the implications of these developments for theory and policy in the practices of the 1980s and 1990s, aiming to escape from the Keynesian modes of thought and expression.

Economics, 12e David Begg, Gianluigi Vernasca, 2019-12-11 Economics 12e *Study Guide to Accompany McConnell Economics* Robert C. Bingham, 1981 Study guide Robert C. Bingham

Three Worlds of Labour Economics Garth L. Mangum, P. Philips, 2016-07-08 First Published in 1988. More than ever before, the economics profession is divided among three competing schools of thought. Especially in labor economics, neoclassical, institutional, and radical perspectives contend, each approaching its analysis of issues from different world views and separate sets of assumptions. This book presents four issues in labor economics: income distribution, racial discrimination, comparable worth, and the international division of labor.

Principles of Macroeconomics Stephen F. Davis, 1999

Study Guide to Accompany Lipsey/Purvis/Steiner Economics and Microeconomics and Macroeconomics E. Kenneth Grant, Richard G. Lipsey, 1991

Study Guide for Use with Macroeconomics, First Canadian Edition De Long, J. Bradford, Olney, Martha, MacDonald, Leigh, 2004. Adapted by Leigh MacDonald at University of Western Ontario. Each chapter in this guide begins with an overview and is followed by a set of matching exercises and multiple choice questions under Basic Definitions. These are followed by two sets of exercises: Manipulation of Concepts and Models, and Applying the Concepts and Models. This is followed by some problems for Explaining the Real World and a set of questions under the heading Possibilities to Ponder. Finally, solutions are provided for all exercises and problems.
