**Teacher Preparation in Papua New Guinea** John Mortimer, 2024-03-20 The authors present a comprehensive examination of the historical origins and development of schooling and teacher preparation in Papua New Guinea from indigenous education in villages the influence of European colonization and the role of missionaries in providing education and the implications for education policies and practices *Vocational Training and the Labour Market* Asian and Pacific Skill Development Programme, 1992

**Election 2007** R.J. May, Ray Anere, Nicole Haley, Katherine Wheen, 2013-09-23 Papua New Guinea's general election in 2007 attracted particular interest for several reasons Not only did it follow what was widely acknowledged as the country's worst election ever in 2002 in which elections in six of the country's 109 electorates were declared to be failed elections it was the first general election to be held under a new limited preferential voting system It also followed the first full parliamentary term under the Organic Law on the Integrity of Political Parties and Candidates which had been introduced in 2001 in an attempt to strengthen political parties and create a greater degree of stability in the national parliament and was the first to embrace a whole of government approach to electoral administration through an Interdepartmental Electoral Committee This volume provides an analysis of the 2007 election drawing on the work of a domestic monitoring team organized through the National Research Institute and several visiting scholars It addresses key issues such as voter education electoral administration election security the role of political parties women as candidates and voters the shift to limited preferential voting and HIV transmission and provides detailed accounts of the election in a number of open and provincial electorates It is generally agreed that the election of 2007 was an improvement on that of 2002 But problems of electoral administration and voting behaviour remain These are identified in this volume and recommendations made for electoral reform *Annual Report* Westpac Bank-PNG-Limited, 1986

**Stop Drifting, Start Rowing** Roz Savage, 2013-10-15 In 2007 Roz Savage set out to row 8 000 miles across the Pacific Ocean alone Despite having successfully rowed across the Atlantic the previous year the Pacific presented the former office worker with unprecedented challenges and overpowering currents both in the water and within herself Crossing Earth's largest ocean alone might seem a long way removed from everyday life yet the lessons Roz learned about the inner journey the ocean and the world are relevant to all of us She shares tales of the ups and downs of her voyage across the waves while offering insights on how to find happiness through a meaningful and rewarding life *Pacific Linguistics*, 1985

Stead, 2012-07-31 Papua New Guinea is going through a crisis A concentration on conventional approaches to development including an unsustainable reliance on mining forestry and foreign aid has contributed to the country's slow decline since independence in 1975 Sustainable Communities

Sustainable Development attempts to address problems and gaps in the literature on development and develop a new qualitative conception of community sustainability informed by substantial and innovative research in Papua New Guinea In this context sustainability is conceived in terms that include not just practices tied to economic development It also informs questions of wellbeing and social integration community building social support and infrastructure renewal In short the concern with sustainability here entails undertaking an analysis of how communities are sustained through time how they cohere and change rather than being constrained within discourses and models of development From another angle this project presents an account of community sustainability detached from instrumental concerns with economic development Contributors address questions such as What are the stories and histories through which people respond to their nation s development What is the everyday social environment of groups living in highly diverse areas migrant settlements urban villages remote communities They seek to contribute to a creative and dynamic grass roots response to the demands of everyday life and local global pressures While the overdeveloped world faces an intersecting crisis created by global climate change and financial instability Papua New Guinea with all its difficulties still has the basis for responding to this manifold predicament Its secret lies in what has been seen as its weakness underdeveloped economies and communities where people still maintain sustainable relations to each other and the natural world
