Makerere University Postgraduate Application 2015 2016

Janet Crum, Samantha Schmehl Hines

Makerere University Postgraduate Application 2015 2016:

Postgraduate Research Engagement in Low Resource Settings Atibuni, Dennis Zami, 2019-09-27 The general academic progression and particularly research engagement of postgraduate students is characterized by various problems such as high dropout rates longer completion times low graduation rates and high repetition or retake rates This means that there are far fewer students pursuing postgraduate studies at tertiary institutions and universities than there are at the lower levels of education Yet there is growing demand for postgraduate education given its strong projected association with socioeconomic transformation at national and international levels among developed and developing countries alike

Postgraduate Research Engagement in Low Resource Settings sets out to garner strategies for fostering efficiency of research conduct among the students and faculty so as to enhance high quality output for the envisaged personal societal national and international socioeconomic transformation Covering a range of topics such as intellectual property mental health and quality assurance this book is ideal for research supervisors higher education faculty librarians educators administrators researchers academicians and students *Supporting Entrepreneurship and Innovation* Janet

Crum, Samantha Schmehl Hines, 2019-04-29 Libraries have recently begun doing more to support entrepreneurship and innovation within their communities This volume explores how this has come about looking at libraries from across North America Europe and Africa and helps position readers to better understand what is happening and how this can be brought to further institutions **Intra-Africa Student Mobility in Higher Education** Chika Trevor Sehoole, Jenny J.

Lee, 2022-01-01 This book examines student mobility within Africa International student mobility is among the central activities of higher education internationalization As the number of international students increase so do the destinations in both number and geographic diversity Historically international student mobility has followed South North and North North patterns However recent literature show the growth in North South and South South patterns of student mobility There has also been a rise in regional mobility In what is referred to in the book as intra Africa mobility the books explores and analyzes the patterns of intra Africa mobility based on seven African countries South Africa Kenya Uganda Nigeria Ghana Senegal and Egypt The editors and contributors address three central research questions Why did the students choose the country they are studying in Why did they choose the institution they are studying in What are their academic and social experiences in these countries and their respective institutions This book is the first comprehensive exploration of intra Africa student mobility in a field that traditionally centers on the Global North *Strengthening Postgraduate Supervision* Sioux

McKenna, Jenny Clarence-Fincham, Chrissie Boughy, Harry Wels, Henk van der Heavel, 2017-03-22 An excellent collection of diverse and deeply reflective perspectives All offer insights into the multiple challenges confronted in improving the quality and depth of postgraduate supervision increasing throughput and dealing with complexity What is also affirmed is the importance of individual capability in supervision that is developed and nurtured over time and through arduous effort The

book will be of value to novice supervisors and to more experienced ones Policy makers planners and administrators looking to enlarge their understanding of the postgraduate terrain in all its complexities will find the mix of theoretical and practical lenses through which the topic is approached particularly illuminating Professor Narend Bajjnath Chief Executive Officer Council on Higher Education **Public Investment Plan** Uganda,Uganda. Ministry of Finance and Economic Planning,2014
