Negotiating Identities in Contemporary Africa Toyin Falola, Emmanuel M. Mbah, 2023-08-29 *Negotiating Identities in Contemporary Africa* Gender Religion and Ethno cultural Identities explores the changing dynamics of identities in Africa with a focus on gender ethno cultural and religious identity Toyin Falola and Emmanuel M Mbah argue that because identity defines who we are as individuals or groups studies on African identities must focus on understanding the changing dynamics in the socio economic and political spheres in the continent These chapters cover subjects such as women s career identity gender roles and knowledge childlessness ethnocentrism and democracy cultural identity through theater Black identity in the diaspora and diasporic consciousness Using existing scholarship the chapters in this edited volume challenge our understanding of what identity entails and provide new discussions on the hitherto politicized historiography of some identities in Africa

The Refugee Crisis and Religion Luca Mavelli, Erin Wilson, 2016-12-01 The current refugee crisis sweeping Europe and much of the world closely intersects with largely neglected questions of religion Moving beyond discussions of religious differences what can we learn about the interaction between religion and migration Do faith based organisations play a role within the refugee regime How do religious traditions and perspectives challenge and inform current practices and policies towards refugees This volume gathers together expertise from academics and practitioners as well as migrant voices in order to investigate these interconnections It shows that reconsidering our understanding and approaches to both could generate creative alternative responses to the growing global migration crisis Beginning with a discussion of the secular religious divide and how it shapes dominant policy practices and counter approaches to displacement and migration the book then goes on to explore and deconstruct the dominant discourse of the Muslim refugee as a threat to the secular Christian West The discussion continues with an exploration of Christian and Islamic traditions of hospitality showing how they challenge current practices of securitization of migration and concludes with an investigation of the largely unexplored relation between gender religion and migration Bringing together leading and emerging voices from across academia and practice in the fields of International Relations migration studies philosophy religious studies and gender studies this volume offers a unique take on one of the most pressing global problems of our time
