1970 Plymouth Road Runner Scott Ross, 2018-01-15 By 1969 the muscle car war among Ford General Motors and Chrysler had reached a fevered pitch Plymouth's Road Runner Mopar's intermediate entry was leading the charge For 1970 the Road Runner had its strongest year yet as it housed the best street V 8s Chrysler had to offer Author Scott Ross retraces the history of the Road Runner and brings the 1970 model year into full focus The stripped down Road Runner exemplified the essence of a purpose built muscle car brute power and stunning acceleration A new aggressive grille and Air Grabber hood provided an audacious yet tasteful performance statement The back to basics Bird had a unique character with its iconic cartoon Road Runner graphics and beep beep horn Underneath the skin the Road Runner lived up to its persona The 335 hp 383 was one of fastest 383s Chrysler built because it was fitted with the 440 camshaft heads and manifolds for even more performance The 440 Six Pack car generated 390 hp and gained a reputation as a stout street performer And at the top the conservatively rated 425 hp 426 Hemi set the standard for performance The Road Runner was lighter than the Cuda and somewhat overbuilt as it was one of the toughest and most consistent muscle cars To transfer all this power to the ground the Road Runner was equipped with the A 833 4 speed or TorqueFlite 727 automatic With a torsion bar suspension and heavy duty rear end the Road Runner handled well However these are just a few of the highlights of this complete story Each volume in the In Detail Series provides an introduction and historical overview an explanation of the design and concepts involved in creating the car a look at marketing and promotion an in depth study of all hardware and available options as well as an examination of where the car is on the market today Also included are paint and option codes VIN and build tag decoders as well as production numbers
