reader as well CONTEXTUALISING ISLAM IN PSYCHOLOGICAL RESEARCH (IIUM PRESS) Mariam Adawiyah Dzulkifli, Nor Diana Mohd Mahudin, 2021-03-10 This book is intended to present a compilation of research that has incorporated the Islamic philosophical theoretical and historical perspective with the concepts theories and methods in psychology While the relationship between Islam research and psychology has been studied previously the effort to incorporate integrate and use Islamic resources to examine phenomena related to psychology through rigorous scientific methods has been found to be lacking among Muslim researchers The present book therefore is an attempt to meet this need by incorporating the Islamic perspective in the conduct of research in psychology It is also an attempt to contextualize Islam in the current efforts in research on psychology so that we can better understand the religion both as an established way of life and as a model of scientific inquiry Finally the remaining chapters are dedicated to the discussion of the conceptual and strategic way forward for research in specific areas of psychology In doing so both the rationale and practicalities of incorporating integrating and utilizing Islamic resources in research on psychology have been provided **Maristāns and Islāmīc Psychology** Rania Awaad, Merve Nursoy-Demir, 2024-12-30 Maristāns and Islāmīc Psychology outlines how the novel methods tools and approaches for treating psychological illnesses developed in the maristāns hospitals of the Muslim world can be utilised today in formulating a practical implementation of Islāmīc psychology IP As a trademark of the Islāmīc Civilisation the maristāns were institutions of healing that boasted the world's first treatment centres for treating psychological illnesses They also served as the centres where theoretical concepts developed by early Muslim scholars physicians theologians and philosophers who contributed to the creation of IP were translated into practical clinical applications A detailed examination of the treatment modalities within these historical treatment centres provides a promising model for creating a holistic approach to psychological healing that is grounded in Islāmīc heritage This text completes such an examination highlighting the practical IP treatment methods in fourteen maristāns geographically spread throughout the Muslim world in order to bridge this centuries long model of psychological care to the modern context As part of the Islāmīc Psychology and Psychotherapy Focus series this book provides a foundation for mental health professionals who either directly deliver mental health services or are involved in creating theories institutions or spaces of IP and psychotherapeutic practices **Twenty-Five Women Who Shaped the Ottoman Empire** Ruth Miller, 2025-03-26 Twenty Five Women Who Shaped the Ottoman Empire is a tale of how women's triumphs as well as their failures shaped a global society not despite but because of gender The Ottoman Empire was among the longest lived polities in history stretching between the thirteenth and twentieth centuries across three continents several seas and scores of cities deserts mountain ranges rivers and forests This volume provides a compendium of idiosyncratic life stories and explores how women from these eras and regions understood the shape of the world in which they lived and how they brought their consciousness of their gender to their efforts to re shape it Among the questions explored in the book are how women have negotiated and

constructed the public and private spheres how to define women's speech in a world mediated by men and male dominated genres and institutions and how women experienced their bodies as sites of politically inflected reproduction death and decay The book is thus an accessibly offbeat feminist overview of the field of Ottoman History that provides students scholars general readers and non specialists with insights into the lives and work of both ordinary Ottoman women and celebrated Ottoman women women who failed despite their best efforts and women who succeeded against all odds suicides spies and murderers as well as queens scientists and poets *Islamophobia* Stephen Sheehi, 2010-12-03 *Islamophobia* The Ideological Campaign Against Muslims examines the rise of anti Muslim and anti Arab sentiments in the West following the end of the Cold War through GW Bush's War on Terror to the Age of Obama Using Operation Desert Storm as a watershed moment Stephen Sheehi examines the increased mainstreaming of Muslim bating rhetoric and explicitly racist legislation police surveillance witch trials and discriminatory policies towards Muslims in North America and abroad The book focuses on the various genres and modalities of Islamophobia from the works of rogue academics to the commentary by mainstream journalists to campaigns by political hacks and special interest groups Some featured Islamophobes are Bernard Lewis Fareed Zakaria Thomas Friedman David Horowitz Ayaan Hirsi Ali Irshad Manji George W Bush Dick Cheney John McCain Hilary Clinton and Barack Obama Their theories and opinions operate on an assumption that Muslims particularly Arab Muslims suffer from particular cultural lacuna that prevent their cultures from progress democracy and human rights While the assertion originated in the colonial era Sheehi demonstrates that it was refurbished as a viable explanation for Muslim resistance to economic and cultural globalization during the Clinton era Moreover the theory was honed into the empirical basis for an interventionist foreign policy and propaganda campaign during the Bush regime and continues to underlie Barack Obama's new internationalism If the assertions of media pundits and rogue academics became the basis for White House foreign policy Sheehi also demonstrates how they were translated into a sustained domestic policy of racial profiling and Muslim baiting by agencies from Homeland Security to the Department of Justice Furthermore Sheehi examines the collusion between non governmental agencies activist groups and lobbies and local state and federal agencies to in suppressing political speech on US campuses critical of racial profiling US foreign policy in the Middle East and Israel While much of the direct violence against Muslims on American streets shops and campuses has subsided Islamophobia runs throughout the Obama administration Sheehi therefore concludes that Muslim and Arab hating emanate from all corners of the American political and cultural spectrum serving poignant ideological functions 2005 ACSA SW Regional Proceedings - IMPROVISATION Southwestern Region, 2006-05 2005 ACSA SW Regional Proceedings IMPROVISATION Lafayette LA
