Abraham Keagy (*Machine Alie*, as he was called,) was a remarkable man in many respects. His advantages were exceedingly limited, and opportunities few to acquire an ordinary education, at that early day limited to reading, writing and cyphering. Nature done much for him—he was a natural mechanic and possessed inventive talent of the highest order. He could construct anything he wished either in wood or metal, and was an expert in any of the mechanical arts. He invented and patented a spark arrester for railroad locomotives, which bears date April 29, 1842, and is said to be the first device for the purpose ever used and very similar to those in use at this day. It is said that unscrupulous parties stole his ideas and reaped the benefit of his genius. He made the patterns and moulds and cast the first cook stoves made and used in this State. These were a godsend to the housewives of more than a half century ago, but would not compare in beauty and finish with the tiled and nickelplated stoves of to-day that are found in the humblest homes. He built and owned a wooden mill, making the carding and spinning ma-

chinery himself with the rude tools of that early day. He built one of the first grist and merchant mills in his county.* It was hardly completed before it was stored with grain by neighboring farmers, when from some unknown cause it was destroyed by fire, inflicting great loss upon its owner. Encouraged by his neighbors and friends, he rebuilt the mill, which still stands and attests his indomitable energy and skill. But it is not alone as a mechanic or genius in which he excelled. He was a broad-gauged man, and was ever ready and willing to aid the deserving and help the needy. His advice was often sought and the conclusions of his ripe judgment followed with marked advantage. He was just, honest and upright in all his dealings with his fellow men and few men maintained through a long life more than he the respect and confidence reposed in him. His genius, skill and industry won its certain reward and he possessed a goodly heritage. His genius and skill entitles him to a place beside Arkwright, Howe or Erierson. So well balanced a mind as his would be successful in any calling or profession in which he might choose to engage. His highest ambition seems to have been to do his duty as a man in every relation in which he was placed and to do his Master's will. At four-score years, after a long and useful life, he went to share the holy rest of a life well spent, honored, respected and loved by all who knew him, leaving behind him the richest legacy that any one can leave to his posterity, an exemplary life and honored name.

4. Anna or Nancy Keagy was b. Jan. 5, 1792, and was the eldest daughter of Jacob Keagy, the 2d son of Jacob, the eldest son of "Hanse" Keagy, and m. Daniel Frederick, ———. They had five children. They resided in Allegheny Co., Pa.

5. Elizabeth Keagy was b. Oct. 13, 1794, and was the 2d daughter of Jacob Keagy, the 2d son of Jacob, the eldest son

* The mill was first built in 1822 and rebuilt the year after it burned down. Mr. Keagy first located in Morrison's Cove, Bedford Co., Pa., in 1815.
