LA FRACTURE COLONIALE ; LA SOCIÉTÉ FRANÇAISE AU PRISME DE L'HERITAGE COLONIAL Danièle Linhart, Aimée Moutet, 2005 La mise au travail salarial repose sur la capacité de l'employeur d'organiser au mieux le travail du salarié pendant le temps payé c'est-à-dire de la façon la plus rentable Or rien ne pourra empêcher que ce temps appartienne en fait aux deux parties aux salariés qui le vivent lui donnent sens et l'employeur qui doit trouver les moyens d'en faire l'usage le plus efficace La solution taylorienne visait d'amorcer toute résistance humaine en objectivant le plus possible ce temps par des gestes imposés et des temps alloués Les formes les plus modernes de travail visent elles-enrôler l'intimité et la personnalité des salariés dans des conditions qui restent imposées et au prix d'une colonisation de leur vie privée et professionnelle sont désormais enchevêtrées tributaires l'une de l'autre Cela n'est certes pas complètement nouveau mais ces effets semblent aujourd'hui plus profonds avec la difficulté de programmer sa vie dans le cadre d'une mobilité généralisée contraignant en permanence à développer ses compétences pour assurer son employabilité

Dans cet ouvrage réunissant des contributions de sociologues d'historiens et d'économistes une première partie étudie la construction et la déconstruction des normes temporelles du travail et les phases de transition notamment dans l'industrie française et dans l'ex-bloc socialiste Une seconde partie est consacrée aux exacerbations actuelles des contradictions autour des enjeux de qualité et de productivité dans des secteurs aussi divers que les abattoirs les hôpitaux la restauration rapide les centres d'appels les CAF et les banques

Race in Translation Robert Stam, Ella Shohat, 2012-05-28 While the term culture wars often designates the heated arguments in the English speaking world spiraling around race the canon and affirmative action in fact these discussions have raged in diverse sites and languages Race in Translation charts the transatlantic traffic of the debates within and between three zones the U S France and Brazil Stam and Shohat trace the literal and figurative translation of these multidirectional intellectual debates seen most recently in the emergence of postcolonial studies in France and whiteness studies in Brazil The authors also interrogate an ironic convergence whereby rightist politicians like Sarkozy and Cameron join hands with some leftist intellectuals like Benn Michaels i ek and Bourdieu in condemning multiculturalism and identity politics At once a report from various fronts in the culture wars a mapping of the germane literatures and an argument about methods of reading the cross border movement of ideas the book constitutes a major contribution to our understanding of the Diasporic and the Transnational

Historicising the French Revolution Carolina Armenteros, 2008 Three decades ago Fran ois Furet famously

announced that the French Revolution was over Napoleon's armies ceased to march around Europe long ago and Louis XVIII even returned to occupy the throne of his guillotined brother And yet the Revolution TM's memory continues to hold sway over imaginations and cultures around the world This sway is felt particularly strongly by those who are interested in history for the French Revolution not only altered the course of history radically but became the fountainhead of historicism and the origin of the historical mentality The sixteen essays collected in this volume investigate the Revolution TM's intellectual and material legacies From popular culture to education and politics from France and Ireland to Poland and Turkey from 1789 to the present day leading historians expose alongside graduate students the myriad ways in which the Revolution changed humanity TM's possible futures its history and the idea of history They attest to how the Revolution has had a continuing global significance and is still shaping the world today

The Construction of Minority Identities in France and Britain Gino G. Raymond, Tariq Modood, 2007-11-09 Britain and France have divergent attitudes to the issue of minority identities Whilst the British emphasise multiculturalism allowing that it is possible to combine race or faith with a British identity the French view such a combination of religion and nationality as unacceptable However recent events have challenged these traditional approaches to minorities The London bombings of July 2005 and the fact that the perpetrators were British threw into question the assumption that the elevation of difference could lead to community cohesion whilst riots in Birmingham in October 2005 between black and Asian communities further highlighted tensions Similarly French certainties about their proactive attitude to the integration of minorities into a national community unified by common value were profoundly shaken by rioting in urban areas

New Perspectives on the Black Atlantic Bénédicte Ledent, Pilar Cuder Domínguez, 2012 This collection of essays attempts to expand the notion of the Black Atlantic beyond its original racial geographical linguistic and cultural borders while acknowledging its remarkable ability to disturb established historical truths and to go beyond traditional dichotomies thereby providing an essential tool for cross cultural understanding It is divided into four sections each of them dealing with a different approach to the question of the Black Atlantic Definitions touches on the various limitations of Gilroy's original concept Readings focuses on how the Black Atlantic can be productively used in readings of certain literary texts Practices shifts towards the practical applications of the concept in order to explore the impact it has had on academic disciplines and examine to what extent it may have altered their epistemology and working procedures Finally Dialogues engages with the Black Atlantic from the perspectives of two creative writers whose work includes transatlantic themes and characters

l'abolition de l'esclavage de Nantes Emmanuelle Chérel, 2012 Le Mémorial de l'abolition de l'esclavage de Nantes est inauguré au printemps 2012. Généré par des associations nantaises puis relayé par la municipalité, cette initiative unique en France est un résultat du processus de réécriture de l'histoire et des revendications mémorielles de ce passé de la traite négrière et de l'esclavage. Cette chronique du projet rappelle sa genèse, ses enjeux locaux et nationaux, les étapes de sa réalisation. Elle analyse les discussions, les difficultés rencontrées, présente les acteurs de la Ville qui se sont affrontés ou réunis autour de ce projet. Un livret contenant les plans conçus par Krzysztof Wodiczko et Julian Bonder et leur évolution est présenté dans l'ouvrage. **The Maghreb Review**, 2008
