Lumumba-Kasongo, Tukumbi, 2017-11-28 The Great Lakes region of Africa is characterized by protest politics partial democratization political illegitimacy and unstable economic growth Many of the countries that are members of the International Conference on the Great Lakes Region ICGLR which are Burundi Angola Central African Republic Democratic Republic of the Congo Republic of the Congo Kenya Uganda Rwanda Sudan South Sudan Tanzania and Zambia have experienced political violence and bloodshed at one time or another While a few states have been advancing electoral democracy environmental protection and peaceful state building the overall intensity of violence in the region has led to civil wars invasion genocide dictatorships political instability and underdevelopment Efforts to establish sustainable peace meaningful socio economic development and participatory democracy have not been quite successful Using various methodologies and paradigms this book interrogates the complexity of the causes of these conflicts and examines their impact and implications for socio economic development of the region The non consensual actions related to these conflicts and imperatives of power struggles supported by the agents of savage capitalism have paralysed efforts toward progress The book therefore recommends new policy frameworks within regionalist lenses and neo realist politics to bring about sustainable peace in the region

International Journal of Sustainable Development, 2007 *Is Democracy a Lost Cause?* Alfio Mastropaolo, 2024-08-22 Is Democracy a Lost Cause explores the current debate on democracy It starts by discussing the meaning of democracy and how the understanding of this important political concept has either broadened or contracted depending on changing political circumstances Mastropaolo then poses

the question of what it means for democracy to be the government of the people He deals with the way in which democratic government has been affected by changes in the fabric of society by the evolution of democratic theory itself and by the transformations affecting the state and political parties Political class and citizens attitudes towards democratic politics increasingly characterised by resentment and often taking the form of an anti politics are analysed in the concluding chapters

La direction du budget au Mali Abdoulaye Fofana, 2020-11-27 La Direction du budget est considérée comme une sentinelle infatigable pragmatique stratégie protectrice de l'intérêt général et mérite d'être connue tant au plan juridique qu'au plan organisationnel En outre elle s'impose comme le vrai pilote inconnu des orientations de politiques publiques qui sont les véritables indicateurs politiques et sociaux ainsi que des indicateurs macroéconomiques En voulant gouverner par les finances publiques l'état contribue à renforcer le pouvoir exorbitant de cette direction tout en rendant plus complexe son organisation et son fonctionnement

Autoritarismes démocratiques et démocraties autoritaires au XXI^e siècle Olivier Dabène, Vincent Geisser, Gilles Massardier, 2008 Relativement au Musée des horreurs politiques l'autoritarisme semblait devoir être emporté par la vague de démocratisation qui a touché aussi bien l'Amérique latine l'Afrique noire et le monde arabomusulman que plus récemment les anciennes démocraties populaires européennes Pourtant la défaite de l'autoritarisme sur le terrain de la légitimité internationale n'a pas toujours produit de mutations décisives des relations de pouvoir au sein des États La libéralisation des

Democratic Governance Séverine Bellina, Hervé Magro, Violaine de Villemeur, France. Ministère des affaires étrangères et européennes, 2009 Governance has become a key word in the lexicon of international relations over the last twenty years It is used loosely and invariably in a liberal idiom by scholars activists civil society organizations politicians and the voluntary sector In many respects it has attained the status of a fetish yet governance remains a notion that has multiple definitions a concept in the making Notwithstanding the imprecision with which the term is employed it has become an inescapable paradigm for the politics of development The contributors to this book drawn from among some of the world's best area studies specialists from North and South offer a diverse global critique of governance as deployed in several key areas institutions and state actors the rule of law democracy and human rights decentralization and state power development and last but not least international cooperation and the role of the World Bank the IMF and NGOs The geographical spread of the volume ranges from Africa to Latin America from Asia to the Middle East Their objectives include a reassessment of governance in its many manifestations an attempt to free the term from its often unhelpful linkage to the state and thereby apply it to other organizations and actors a re-evaluation of the Western dominated use of the term politically and an attempt to broaden its application beyond issues such as transparency and the fight against corruption and a search for innovative applications of the term driven by a consensus that transcends current economic and political inequalities

Le constitutionnalisme de la troisième vague en Afrique francophone André Cabanis, Michel L. Martin, 2010 Il existe très peu de travaux faisant le point de manière approfondie et comparative sur les constitutions qui encadrent les régimes politiques contemporains de l'Afrique francophone soit vingt trois pays Par ailleurs l'impact indéniable des agencements constitutionnels sur les évolutions politiques et l'importance attachée aujourd'hui par la communauté internationale et par les opinions publiques au constitutionnalisme considérer comme l'une des principales sources de la consolidation démocratique donnent toute sa pertinence ce livre
