THE MISSING LINK IN LITERARY JOURNALISM

What exactly is the editor's role?

By Bill Reynolds,
Ryerson University (Canada)

What about the editors of literary journalism? Lately, I've been preoccupied with an idea about literary journalism, and indeed long-form writing in general, that has less to do with the actual writing and more to do with the type of way of looking at the world that would allow this sort of writing to occur in the first place. That is, what kinds of conditions need

PRESIDENT'S
LETTER

to be set in place in order to ensure that literary and long-form journalism can happen?

Of course, we know these are several monuments to long form, long-standing beacons for this type of reporting and writing. To quickly survey the usual suspects, there is the

New Yorker, albeit with fewer colossal-sized investigations. There is Harper's, which continues on its own path of what it calls "submersion journalism," that is, something called "reporting in the radical first-person." There is the Atlantic, although the eyes of its editors are perhaps less fixed these days on the near horizon—that is, what of significance to the nation will readers be thinking about six months to a year from now?—and more focused on the near present, at least in comparison to the days when William Whitworth, Michael Kelly and Cullen Murphy, respectively, were in charge. In the U.K., Granta remains an obvious beacon of reportage, although that is not its exclusive

domain. In Canada, we have the Walrus, which might make its tenth anniversary, October 2013, which would, in these uncertain times, be reason to celebrate.

And there are several publications that used to move their dabble in long form but have given themselves over to the more commercially viable service journalism format, such as Esquire and CQ magazines. And there is a new breed of online long-format outlets, such as ESPN's Greetings and Random House's Hazlitt (a publishing house commissioning nonfiction freelance articles—yes, it is a strange "periodical" universe out there right now).

Mind you, a quick glance suggests these venues are not interested in word counts north of the 2,000 mark. As such, the stories tend not to be deeply researched, which traditionally has been a factor placed in the plus column in order for a piece to qualify for literary-journalism status. And another new model to come along is Byliner, which publishes long-form investigative and literary journalism (and fiction) in bite-sized book form. In Jon Krakauer's case, his *Three Cups of Deceit* mini-book—96 pages when it graduated from e-book status to Anchor trade paperback—qualified as both. The subtitle says it all: *How Greg Mortenson, Humanitarian Hero, Lost His Way*.

While old delivery systems hang on and newer ones are incubated by the week, the one constant is editorial vision. There is a hunger for understanding the world in a way that goes beyond the 24/7 cable news universe; beyond the daily newspaper grind; and certainly beyond the search-engine-optimization justification for flat online storytelling (with its incessant updates and built-in carelessness, i.e., don't worry, we'll correct it as we go—which, by the way, makes complete sense, considering the technology at hand).

Once the other factors have been whittled away and put aside, editorial mandate is the important one not yet mentioned. We know how important visionary editors such as Clay Felker have been to their publications. At New York magazine, Felker practi-

The Crimes of Marguerite Duras Anne Brancy, 2020-07-09 One of the most celebrated authors of twentieth century

France Marguerite Duras loved crime. Indeed criminal facts divers from the newspaper represented a key element in her literary project. Sensational news stories made their way into her novels, plays and screenplays inspired numerous journalistic pieces and media interventions and even informed the way that she discussed her life and work in the press. The Crimes of Marguerite Duras offers an innovative framework for analyzing Duras's literary works and journalism as they relate to the mass media and broader cultural debates. Anne Brancky reveals how Duras's predilection for provocatively blurring the line between truth and fiction on various media platforms helped make her a best selling author and a public intellectual ahead of her time. Exploring the movement between serious literature and public scandal, this readable book affirms literature's abiding role in political debate and the public sphere.

Factual Fictions Leonora Flis, 2010-08-11. *Factual Fictions: Narrative Truth and the Contemporary American Documentary Novel* focuses on contemporary American documentary narratives, specifically the documentary novel as it re-emerged in the 1960s and later developed into various other forms. The book explores the connections between the documentary novel and the concurrent rise of New Journalism, a literary journalism in the United States situating the two genres in the cultural context of the tumultuous 1960s and an emerging postmodern ethos. Flis makes a comprehensive analysis of texts by Truman Capote, Norman Mailer, John Berendt, and Don DeLillo while tackling discussions on various theoretical complexities with assurance and rigor. Interested in the precarious divide between fact and fiction, the author productively complicates traditional notions of the two poles. Furthermore, the book examines parallels between contemporary Slovene documentary narratives and their American counterparts. Flis's work with its systematic and innovative approach to the subject matter adds an important historical dimension to the developing field of literary journalism studies as well as to the more established area of 20th Century American literature.
