

REDUTTORE DI PRESSIONE METANO

Il gruppo riduttore di pressione è installato nel vano motore. Esso comprende il riduttore di pressione vero e proprio e un elettrovalvola di intercettazione: su di esso è inoltre montato il sensore di pressione metano.

La tubazione ad alta pressione porta il metano dalla bombola all'ingresso del gruppo riduttore di pressione, mentre all'uscita del gruppo stesso è collegata la tubazione a bassa pressione.

Reduttore di pressione

Il riduttore di pressione ha il compito di ridurre la pressione del metano dal valore presente nella bombola al valore di alimentazione degli elettroventilatori metano (di ca. 1 bar). In tutte le condizioni di funzionamento del motore.

Quando la pressione nella bombola scende approssimativamente a 11 bar, la centralina controlla motore interviene automaticamente e l'alimentazione di metano è fermata, in quanto una pressione inferiore a 11 bar all'ingresso del riduttore, componibile, automaticamente, una pressione inferiore a 1 bar all'uscita dello stesso, che sarebbe insufficiente per una buona alimentazione del motore.

Collegamento riduttore di pressione

Poiché il metano subisce un forte abbassamento di temperatura a causa della sua espansione dovuta al calo di pressione, il circuito di raffreddamento motore ha una derivazione che permette al liquido refrigerante motore di riscaldare il gruppo riduttore di pressione in modo da evitare eventuali inconvenienti dovuti al calo di temperatura.

SERBATOIO METANO

Collocazione bombola metano

Il metano allo stato gassoso viene compresso ad alta pressione nominale di esercizio di 200 bar a 15°C, nella bombola fissata sotto il pavimento del veicolo. A carica ultimata, il metano all'interno della bombola resta comunque sempre allo stato gassoso.

La bombola è intrinsecamente in acciaio (per normativa) e viene sottoposta, per legge, a una prova idraulica a 300 bar pressione (come previsto dalla normativa relativa all'urto) e dalle prove di crash (ECE 1002 ed EC E 246).

Modello	Cap. metano
1400 cc	28,5 m³

Urto bombola metano

Manuale Fiat Multipla Bipower

Fiat (Firm)

Manuale Fiat Multipla Bipower:
