may 19 2022 abstract breakthrough technologies for mineral exploration are discussed from two perspectives the first perspective is intended to discuss the important factors required for exploration technologies derived deductively from a review of the role and expectations of exploration in the mining industry and the current situation of the mining *mining and exploration for mineral resources eolss* - Apr 16 2023

mineral exploration leading to the discovery of new ore deposits and products is one of the most important forces helping to fend off depletion in section 1 the fundamentals and aims of mineral exploration are briefly introduced in section 2 the characteristics and formative processes of mineral deposits are described for geologic prospecting

*geological methods in mineral exploration and mining* - Feb 14 2023

this practical step by step guide describes the key geological field techniques needed by today s exploration geologists involved in the search for metallic deposits the techniques described are fundamental to the collection storage and presentation
