## **Knowledge Readings In Contemporary Epistemology By Sven Bernecker:**

*Reading Epistemology* Sven Bernecker, 2006-01-30 Designed for readers who have had little or no exposure to contemporary theory of knowledge *Reading Epistemology* brings together twelve important and influential writings on the subject Presents twelve influential pieces of writing representing two contrasting views on each of six core topics in epistemology Each chapter contains an introduction to the topic introductions to the authors extensive commentaries on the texts questions for debate and an annotated bibliography Includes writings from Robert Nozick Ernest Sosa Laurence Bonjour and Fred Dretske Encourages readers to engage with the texts and to think for themselves Knowledge Sven Bernecker, Fred Dretske, 2004 The Bounds of Freedom: Kant's Causal Theory of Action Robert Greenberg, 2016-09-26 This monograph is a new interpretation of Kant's temporal conception of the causality of the freedom of the will The interpretation is based on an analysis of Kant's primary conception of an action viz as a causal consequence of the will The analysis in turn is based on H P Grice's causal theory of perception and on P F Strawson's modification of the theory The monograph rejects the customary assumption that Kant's maxim of an action is a causal determination of the action It assumes instead that the maxim is definitive of the action and since its main thesis is that an action for Kant is to be primarily understood as an effect of the will it concludes that the maxim of an action can only be its logical determination Kant's temporal conception of the causality of free will is confronted not only by contemporary philosophical conceptions of causality but by Kant's own complementary theory of causality in the Second Analogy of Experience According to this latter conception causality is a natural relation among physical and psychological objects and is therefore a temporal relation among them Faced with this conflict Kant scholars like Allen W Wood either reject Kant's temporal conception of causality or like Henry E Allison accept it but only in an anodyne form Both camps however make the aforementioned assumption that Kant's maxim of an action is a causal determination of the action The monograph rejecting the assumption belongs to neither camp First Philosophy II: Knowledge and Reality - Second Edition Andrew Bailey, 2011-07-08 *First Philosophy Knowledge and Reality* brings together classic and ground breaking readings on epistemology and the philosophy of science Andrew Bailey's highly regarded introductory anthology has been revised and updated in this new edition The comprehensive introductory material for each chapter and selection remains and new sections on philosophical puzzles and paradoxes and philosophical terminology have been added New readings include Edmund Gettier on justified true belief Wesley Salmon on induction and Helen Longino on feminist science **Empiricism and Experience** Anil Gupta, 2006-08-31 This book offers a novel account of the relationship of experience to knowledge The account builds on the intuitive idea that our ordinary perceptual judgments are not autonomous that an interdependence obtains between our view of the world and our perceptual judgments Anil Gupta shows in this important study that this interdependence is the key to a satisfactory account of experience He uses tools from logic and the philosophy of language to argue that his account of experience makes

available an attractive and feasible empiricism      **First Philosophy: Knowing and Being - Second Edition** Andrew Bailey, 2013-06-17 First Philosophy Knowing and Being brings together over thirty classic and contemporary readings in epistemology and metaphysics Mindful of the intrinsic difficulty of the material the editors provide comprehensive introductions both to each topic and to each individual selection By presenting a detailed discussion of the historical and intellectual background to each piece the editors enable readers to approach the material without unnecessary barriers to understanding A brief introduction to arguments is included as are appendices on terminology and philosophical puzzles and paradoxes      **Comparative Philosophy and J.L. Shaw** Purushottama Bilimoria, Michael Hemmingsen, 2015-09-03 As a Festschrift this book celebrates and honours the scholarly achievements of Professor Jaysankar Lal Shaw one of the most eminent and internationally acclaimed comparative philosophers of our times Original works by leading international philosophers and logicians are presented here exploring themes such as meaning negation perception and Indian and Buddhist systems of philosophy especially Nyaya perspectives Professor Shaw's untiring effort to solve some of the problems of contemporary philosophy of language logic epistemology metaphysics and morals from the perspectives of classical Indian philosophers or systems of philosophy is deserving of a tribute Chapters in this volume reflect the diverse aspects of Shaw's contribution to comparative philosophy and are organised into four sections Language Epistemology Mathematics and Logic Ethics and Politics These chapters would appeal to anyone interested in philosophy or East West thinking including students and professionals Graduates and researchers with interests in epistemology metaphysics political philosophy logic and non western philosophy will find this work highly relevant Regarding the editors Purushottama Bilimoria is a honorary professor at Deakin University and research fellow at the University of Melbourne in Australia a Visiting Professor and Lecturer at University of California Berkeley and Graduate Theological Union Michael Hemmingsen is a PhD Candidate in the Department of Philosophy at McMaster University Ontario Canada      **Philosophy** James K. Dew, Jr., Paul M. Gould, 2019-04-02 Two experienced educators offer an up to date introduction to philosophy from a Christian perspective that covers the four major areas of philosophical thought epistemology metaphysics philosophy of religion and ethics Written from an analytic perspective the book introduces key concepts and issues within the main areas of philosophical inquiry in a comprehensive yet accessible way inviting readers on a quest for goodness truth and beauty that ultimately points to Jesus as the source of all      *First Philosophy - Second Edition* Andrew Bailey, 2011-04-05 First Philosophy brings together fifty four classic and contemporary readings on seven central philosophical topics Mindful of the intrinsic difficulty of the material the editors provide comprehensive introductions both to each topic and to each individual selection By presenting a detailed discussion of the historical and intellectual background to each piece the editors enable readers to approach the material without unnecessary barriers to understanding A brief introduction to arguments is included as are appendices on terminology and philosophical puzzles and paradoxes      Epistemology Robert M. Martin, 2010-06 What is knowledge How

do you know what you know Could you be a brain in a tank getting fed electrical signals How do we know that anyone else exists Epistemology the study of knowledge sets out to answer these and other questions that underpin all philosophical and scientific thought International Bibliography of Sociology Compiled by the British Library of Political and Economic Science, 2002-12 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge on the social sciences The Journal of the Indian Academy of Philosophy Indian Academy of Philosophy, 2009 *Historical Dictionary of Epistemology* Ralph Baergen, 2006 Epistemology is the branch of philosophy that investigates our beliefs evidence and claims of knowledge It is one of the core areas of philosophy and is relevant to an astonishingly broad range of issues and situations Epistemological issues arise whenever we recognize that there is a fact of the matter but we do not know what it is when we wonder about the future or the past or distant places when we seek answers in the sciences and even in our entertainment e g murder mysteries and comedies of misunderstanding The Historical Dictionary of Epistemology provides an overview of this field of study and of the theories concepts and personalities through the use of a list of acronyms a chronology an introductory essay a bibliography and more than 500 cross referenced dictionary entries covering notable concepts theories arguments publications issues and philosophers Students and others who wish to acquaint themselves with epistemology will be greatly aided by this reference Proceedings and Addresses of the American Philosophical Association American Philosophical Association, 2000 List of members in v 1 *Philosophical Questions* James Fieser, Norman Lillegard, 2005 This topically organized anthology and textbook includes numerous excerpts from contemporary philosophers as well as from Western classics and major Eastern texts encouraging students to explore connections between works from the Western and Eastern traditions and from different time periods BOOK JACKET **The Bounds of Freedom** Robert Greenberg, 2016 Greenberg tackles one of Kant's most difficult ideas that we can be the cause of our actions only if the act of our will is free of everything that makes up who we are as individuals This entails that our free will does not exist in the same time
