La Controverse Wagner:

Claiming Wagner for France Rachel Orzech, 2022 This book examines the shifting attitudes toward Wagner reflected in the Parisian press during the period of the Third Reich Paradoxically during one of the darkest periods of French history as the German threat grew more tangible and then manifested in the Nazi occupation of France Parisians chose to see in Wagner a universality that transcended his Germanness As Franco German diplomatic relations gradually worsened in the 1930s Wagner became an increasingly integral part of French musical culture Parisians were unwilling to surrender Wagner to German exclusivist claims In previous decades the French had used Wagner to symbolize a diverse array of political arguments and positions from right wing nationalism to left wing humanism and egalitarianism In the 1930s however the Parisian press depicted him as a universalist Although Wagner had stood in for German nationalism and chauvinism in recent periods of Franco German conflict in the 1930s Parisians refused this notion and attempted to reclaim his role in their own national history and imagination Even once war was declared in 1939 and a ban on the performance of Wagner s music was implemented commentators insisted that it was simply a temporary measure designed to avoid public disturbance Simultaneously they maintained that music has no borders and that it is childish to mix art and politics The Wagner discourses that emerged from the 1930s Parisian press paved the way for the dominant Wagner discourse in the German controlled Occupation press Collaboration through Wagner By a great irony of history the concept of Wagner the universalist that had been used to resist the Nazis in the 1930s was transformed into the infamous collaborationist rhetoric promoted by the Vichy government between 1940 and 1944

Le Guide Musical ,1870 **Opera in Paris from the Empire to the Commune** Mark Everist, 2018-11-21 Studies in the history of French nineteenth century stage music have blossomed in the last decade encouraging a revision of the view of the primacy of Austro German music during the period and rebalancing the scholarly field away from instrumental music key to the Austro German hegemony and towards music for the stage This change of emphasis is having an impact on the world of opera production with new productions of works not heard since the nineteenth century taking their place in the modern repertory This awakening of enthusiasm has come at something of a price Selling French opera as little more than an important precursor to Verdi or Wagner has entailed a focus on works produced exclusively for the Paris Op ra at the expense of the vast range of other types of stage music produced in the capital op ra comique op rette com die vaudeville and m lodrame for example The first part of this book therefore seeks to reintroduce a number of norms to the study of stage music in Paris to re establish contexts and conventions that still remain obscure The second and third parts acknowledge Paris as an importer and exporter of opera and its focus moves towards the music of its closest neighbours the Italian speaking states and of its most problematic partners the German speaking states especially the music of Weber and Wagner Prefaced by an introduction that develops the volume s overriding intellectual drivers of cultural exchange genre and institution this collection brings together twelve of the author s previously published

and Bronwen Neil investigate crisis management as conducted by the increasingly important episcopal class in the 5th and
6th centuries Their basic source is the neglected corpus of bishops' letters in Greek and Latin the letter being the most
significant mode of communication and information transfer in the period from 410 to 590 CE The volume brings together
into a wider setting a wealth of previous international research on episcopal strategies for dealing with crises of various
kinds Six broad categories of crisis are identified and analysed population displacement natural disasters religious disputes
and religious violence social abuses and the breakdown of the structures of dependence Individual case studies of episcopal
management are provided for each of these categories This is the first comprehensive treatment of crisis management in the
late antique world and the first survey of episcopal letter writing across the later Roman empire
