

Impact factor list

The impact factor or journal impact factor of an academic journal is a scientometric index calculated by Clarivate that reflects the yearly mean number of citations of articles published in the last two years in a given journal, as indexed by Clarivate's Web of Science.

List Journals Impact Factor:

The Impact Factor of Scientific and Scholarly Journals Tibor Braun, 2007 Introducing Communication Research Donald Treadwell, Andrea Davis, 2019-07-30 Introducing Communication Research Paths of Inquiry teaches students the basics of communication research in an accessible manner by using interesting real world examples engaging application exercises and up to date resources Best selling author Donald Treadwell and new co author Andrea Davis guide readers through the process of conducting communication research and presenting findings for scholarly professional news media and web audiences The Fourth Edition continues to emphasize the Internet and social media as topics of and tools for communication research and incorporates new content on online methodologies qualitative research critical methodologies and ethics

Pathways to International Publication in the Social Sciences Insung Jung, 2025-01-20 This guide offers a clear step by step approach for graduate students and early career researchers especially non native English speakers seeking to publish in international journals in the social sciences It provides practical strategies for preparing submitting and refining research papers helping researchers navigate the challenges of academic publishing With 21 chapters the guide covers every stage of writing revising and submission while addressing the unique obstacles faced by non native English speakers The guide helps researchers identify reputable journals avoid predatory ones and use digital tools to meet international standards It then provides a structured roadmap that simplifies the publication process covering steps like journal selection writing compelling abstracts and drafting the methods and results sections By the end of the guide it is expected that researchers will have a strong first draft or ideally a submission ready manuscript The guide also addresses language barriers cultural differences and unfamiliarity with international conventions It offers practical solutions for improving English writing utilizing digital tools responding to peer reviews and managing revisions effectively It emphasizes ethical guidelines like avoiding plagiarism properly crediting co authors and ensuring research transparency to help researchers meet global standards Unlike other research guides this one is specifically tailored to early career and non native English researchers working in social science disciplines It offers practical strategies and real world examples to equip researchers and teachers of research methods and academic writing with a framework for achieving publishing success in global academia

Springer Handbook of Science and Technology Indicators Wolfgang Glänzel, Henk F. Moed, Ulrich Schmoch, Mike Thelwall, 2019-10-30 This handbook presents the state of the art of quantitative methods and models to understand and assess the science and technology system Focusing on various aspects of the development and application of indicators derived from data on scholarly publications patents and electronic communications the individual chapters written by leading experts discuss theoretical and methodological issues illustrate applications highlight their policy context and relevance and point to future research directions A substantial portion of the book is dedicated to detailed descriptions and analyses of data sources presenting both traditional and advanced approaches It addresses the main bibliographic metrics

and indexes such as the journal impact factor and the h index as well as altmetric and webometric indicators and science mapping techniques on different levels of aggregation and in the context of their value for the assessment of research performance as well as their impact on research policy and society It also presents and critically discusses various national research evaluation systems Complementing the sections reflecting on the science system the technology section includes multiple chapters that explain different aspects of patent statistics patent classification and database search methods to retrieve patent related information In addition it examines the relevance of trademarks and standards as additional technological indicators The Springer Handbook of Science and Technology Indicators is an invaluable resource for practitioners scientists and policy makers wanting a systematic and thorough analysis of the potential and limitations of the various approaches to assess research and research performance *Reclaiming Public Universities* Manisha

Priyam, 2022-04-25 This book explores the nature of public universities and higher education reforms in emerging economies with a focus on India South Africa and Brazil Drawing on context based case studies the essays in the volume highlight the state of public universities amongst the developing world with their shared colonial past and social caste and race inequalities Based on comparative and multidisciplinary studies the book provides a critical account of the policy reforms and changes on account of globalization and markets in higher education in public universities of the Global South regions The chapters also compare methodological approaches to university reform and restructuring of public universities and higher education systems in USA Australia the European Union and India and examine the California model the Bologna process the Melbourne model the University of Delhi reforms and engage critically with the New Public Management inspired reform policies The book further lays the groundwork for understanding massification in a contextual way and the possibilities for expansion of scale of mass higher education through public provision With its empirical findings and social theory analyses by global experts the volume will be of great interest to scholars and researchers of education higher education sociology and social anthropology development studies public policy and administration politics political economy and Global South studies It will also be useful to educationists policymakers and civil society organizations Book Power in Communication,

Sociology and Technology Tereza Khecyoyan, Manolis Koukourakis, Angela Repanovici, 2018-12-31 In 2012 The Library of Congress Washington D C U S A had the initiative of organizing an annual meeting which would disseminate the vision of library leaders on the importance of the book The meeting would gather all the categories involved in the book industry writers publishers editors professors librarians The goal was to create a platform for discussions on how to promote the book as a crucial element for culture and education enhancement The power of information and its dissemination was discussed within the first edition while keeping the book as a central element in all debates After this first edition the Summit of the book was organized yearly in different locations throughout the world Singapore 2013 France 2014 Egypt 2015 and Ireland 2016 The event had a powerful international impact and in 2017 the 6th summit was hosted in Brasov Romania at the

Transilvania University This volume is the collection of the most valuable contributions to the 6th Summit of the Book where experts presented their best practices and expertise in the history and technology of the book knowledge support and book dissemination

International Conference on Digital Libraries (ICDL) 2016 Shantanu Ganguly,P K Bhattacharya,Projes Roy,Pallavi Shukla,N Deepa,2016-12-14 The ICDL Conferences are recognized as one of the most important platforms in the world where noted experts share their experiences Many DL experts have contributed thought provoking papers in ICDL 2016 These important papers are reviewed and conceptualized into ICDL on di_erent areas of DL proceedings The Proceedings have two volumes and over 700 pages

Doing Research That Matters Marco Busi,2013-06-26 Doing Research That Matters looks at an old issue from a new perspective taking a fresh and cross disciplinary approach to learning how we can contribute with our work to shaping the future of management
