November 2019 Monthly Current Affairs with MCQs for Competitive Exams Disha Experts, 2019-10-21 Interest in Mathematics and Science Learning Ann Renninger, Martina Nieswandt, Suzanne Hidi, 2015-04-19 Interest in Mathematics and Science Learning edited by K Ann Renninger Martin Nieswandt and Suzanne Hidi is the first volume to assemble findings on the role of interest in mathematics and science learning As the contributors illuminate across the volume s 22 chapters interest provides a critical bridge between cognition and affect in learning and development This volume will be useful to educators researchers and policy makers especially those whose focus is mathematics science and technology education

Health Informatics - E-Book Ramona Nelson, Nancy Staggers, 2016-12-08 Awarded second place in the 2017 AJN Book of the Year Awards in the Information Technology category See how information technology intersects with health care Health Informatics An Interprofessional Approach 2nd Edition prepares you for success in today s technology filled healthcare practice Concise coverage includes information systems and applications such as electronic health records clinical decision support telehealth ePatients and social media tools as well as system implementation New to this edition are topics including data science and analytics mHealth principles of project management and contract negotiations Written by expert informatics educators Ramona Nelson and Nancy Staggers this edition enhances the book that won a 2013 American Journal of Nursing Book of the Year award Experts from a wide range of health disciplines cover the latest on the interprofessional aspects of informatics a key Quality and Safety Education for Nurses QSEN initiative and a growing specialty area in nursing Case studies encourage higher level thinking about how concepts apply to real world nursing practice Discussion questions challenge you to think critically and to visualize the future of health informatics Objectives key terms and an abstract at the beginning of each chapter provide an overview of what you will learn Conclusion and Future Directions section at the end of each chapter describes how informatics will continue to evolve as healthcare moves to an interprofessional foundation NEW Updated chapters reflect the current and evolving practice of health informatics using real life healthcare examples to show how informatics applies to a wide range of topics and issues NEW mHealth chapter discusses the use of mobile technology a new method of health delivery especially for urban or under served populations and describes the changing levels of responsibility for both patients and providers NEW Data Science and Analytics in Healthcare chapter shows how Big Data as well as analytics using data mining and knowledge discovery techniques applies to healthcare NEW Project Management Principles chapter discusses proven project management tools and techniques for coordinating all types of health informatics related projects NEW Contract Negotiations chapter describes strategic methods and tips for negotiating a contract with a healthcare IT vendor NEW Legal Issues chapter explains how federal regulations and accreditation processes may impact the practice of health informatics NEW HITECH Act chapter explains the regulations relating to health informatics in the Health Information Technology for Education and Clinical Health Act as well as the Meaningful Use and Medicare Access CHIP

Reauthorization Act of 2015 Alternative Models of Addiction Hanna Pickard, Serge H. Ahmed, Bennett Foddy, 2015-12-07 For much of the 20th century theories of addictive behaviour and motivation were polarized between two models The first model viewed addiction as a moral failure for which addicts are rightly held responsible and judged accordingly The second model in contrast viewed addiction as a specific brain disease caused by neurobiological adaptations occurring in response to chronic drug or alcohol use and over which addicts have no choice or control As our capacity to observe neurobiological phenomena improved the second model became scientific orthodoxy increasingly dominating addiction research and informing public understandings of addiction More recently however a dissenting view has emerged within addiction research based partly on new scientific research and partly on progress in philosophical and psychological understandings of relevant mental phenomena This view does not revert to treating addiction as a moral failure but nonetheless holds that addictive behaviour is fundamentally motivated by choice and subject to at least a degree of voluntary control On this alternative model of addiction addictive behaviour is an instrumental means to ends that are desired by the individual although much controversy exists with respect to the rationality or irrationality of these ends the degree and nature of the voluntary control of addictive behaviour and motivation the explanation of the difference between addictive and non addictive behaviour and motivation and lastly the extent to which addictive behaviour and motivation is correctly characterised as pathological or diseased This research topic includes papers in the traditions of neuroscience psychology philosophy law and social science that explore alternative understandings of addiction Personalized Deeper Learning James A. Bellanca, 2020-12-30 Access simple yet powerful personalized learning plans that any teacher regardless of grade existing curriculum or student load can adapt scale and sustain Achieve deep learning with teaching strategies that foster students cognitive digital and social emotional learning SEL skills Use this how to guide to plan and implement deep learning outcomes Explore the three critical skill sets needed to thrive in the 21st century 1 complex cognitive 2 social emotional and 3 digital Learn how to foster a trusting learning environment that enhances student engagement Understand how digital management tools electronic templates and websites can help transform the classroom into a place where students experience deeper learning Observe numerous classroom examples of personalized deeper learning at the elementary and secondary levels Study specific teaching strategies to enhance learning transfer Contents Introduction Chapter 1 Personalized Learning Plans Chapter 2 Engagement Chapter 3 Outcomes Driven Instruction and Assessment Chapter 4 Student Agency Chapter 5 Skill Transfer Chapter 6 The Complex Cognition Skill Set Chapter 7 The Social Emotional Skill Set Chapter 8 The Digital Skill Set Conclusion Personalized Deeper Learning for a Lifetime Appendix Templates Women's Under-Representation in the Engineering and Computing Professions: Fresh Perspectives on a Complex Problem Kathleen Buse, Catherine Hill, Romila Singh, 2018-06-21 Understanding the many complexities that define gender inequality has been described by researchers as a grand challenge Novel insights innovation a broader community to conduct research and to

ascertain effective interventions are essential in the challenge to create organizations that are gender equal As such this Research Topic in Frontiers in Psychology addresses the under representation of women in engineering and computing as a complex but solvable problem This Research Topic seeks to inform the global community about advances in understanding the under representation of women in engineering and computing with a focus on what enables change Further this Topic will promote fresh perspectives innovative methodologies and mixed method approaches important to accelerating the pace of change

The Rise of English Rosemary Salomone, Rosemary C. Salomone, 2022 A sweeping account of the global rise of English and the high stakes politics of language Spoken by a quarter of the world's population English is today's lingua franca its common tongue The language of business popular media and international politics English has become commodified for its economic value and increasingly detached from any particular nation This meteoric rise of English has many obvious benefits to communication Tourists can travel abroad with greater ease Political leaders can directly engage their counterparts Researchers can collaborate with foreign colleagues Business interests can flourish in the global economy But the rise of English has very real downsides as well In Europe imperatives of political integration and job mobility compete with pride in national language and heritage In the United States and England English isolates us from the cultural and economic benefits of speaking other languages And in countries like India South Africa Morocco and Rwanda it has stratified society along lines of English proficiency In *The Rise of English* Rosemary Salomone offers a commanding view of the unprecedented spread of English and the far reaching effects it has on global and local politics economics media education and business From the inner workings of the European Union to linguistic battles over influence in Africa Salomone draws on a wealth of research to tell the complex story of English and ultimately to argue for English not as a force for domination but as a core component of multilingualism and the transcendence of linguistic and cultural borders
