- 8 A decrease in stationery (if sent back) is done on the debit side. The contra account is reflected as Creditors control which means that this was stationery bought on credit but for some reason sent back to the supplier. Creditors control (the contra account) will be debited with the same amount.
- 9 A decrease in stationery (owner took for personal use) is done on the debit side. The contra account is reflected as Drawings which means that this was stationery taken for personal use by the owner. Drawings (the contra account) will be debited with the same amount.
- 10 Both the debit and credit side of the account is now totalled. Write the amounts in pencil. The larger amount is then written in the space reflected as (+/-).
- 11 The fact that the larger amount was written in, will make the account mathematically incorrect. The smaller amount needs to be subtracted from the larger amount. The difference between the amounts is reflected as 'balance'.
- 12 The balance is taken over to the other side of the equation to indicate the start of a new month.
