Marsden Hartley Dieter Scholz, Los Angeles County Museum of Art, 2014 American painter Marsden Hartley 1877 1943 lived in Europe from 1913 to 1915 After spending some time in Paris and Munich he moved to Berlin where he painted his most impressive works Hartley was associated with Herwarth Walden's Sturm gallery and participated in its First German Autumn Salon in 1913 which featured numerous international artists Immediately prior to and after his Berlin years Hartley cultivated a style of painting that was moderately figurative however the years 1913 to 1915 marked an apogee of abstraction in his career During these years he developed a completely independent vernacular which placed him at the forefront of the avant garde of the time His paintings from this period literally explode off the canvas they are composed of bright starkly contrasting colours that directly border one another The theme around which these works revolve is the First World War Flags military standards and insignia such as the Iron Cross form recurring motifs in the paintings Hartley's relationship with the Prussian Officer Karl von Freybourg who died just months after the outbreak of war led to Hartley producing such masterworks as Portrait of a German Officer 1914 Metropolitan Museum New York in which abstract forms and military paraphernalia are so densely interwoven that the resulting portrait is composed purely of symbols Staatliche Museen zu Berlin website viewed June 5 2014 **Frames of Reference** Whitney Museum of American Art, Adam D.

Lubin, 2016-04-06 A vivid engaging account of the artists and artworks that sought to make sense of America's first total war Grand Illusions takes readers on a compelling journey through the major historical events leading up to and beyond US involvement in WWI to discover the vast and pervasive influence of the conflict on American visual culture David M Lubin presents a highly original examination of the era's fine arts and entertainment to show how they ranged from patriotic idealism to profound disillusionment In stylishly written chapters Lubin assesses the war's impact on two dozen painters designers photographers and filmmakers from 1914 to 1933 He considers well known figures such as Marcel Duchamp John Singer Sargent D W Griffith and the African American outsider artist Horace Pippin while resurrecting forgotten artists such as the mask maker Anna Coleman Ladd the sculptor Gertrude Vanderbilt Whitney and the combat artist Claggett Wilson The book is liberally furnished with illustrations from epoch defining posters paintings photographs and films Armed with rich cultural historical details and an interdisciplinary narrative approach David Lubin creatively upends traditional understandings of the Great War's effects on the visual arts in America

The Jungian Strand in Transatlantic Modernism Jay Sherry, 2018-06-27 The first truly satisfying account of Jung's personal engagement with the modern art movement and its pioneers in America and England John Beebe past president of the C G Jung Institute of San Francisco and founding editor of Jung Journal Culture and Psyche While we know a great deal

about Freud and Freudians the impact made by C G Jung on twentieth century cultural history in Europe and in America is much less studied This clearly written and concise book is an excellent survey of Jung s wide ranging influence Suzanne Marchand Boyd Professor of History Louisiana State University USA It s difficult to see Jung as a modernist and the great man himself doesn t make it easy for us In this brilliant study Jay Sherry pulls it off showing that Jung still has some surprises in store for those who think they know him An important and necessary rethink that will stimulate much debate Gary Lachman author of twenty books instructor at the California Institute of Integral Studies and founding member of the pop group Blondie

Becoming Mary Sully Philip J. Deloria, 2019-04-24 The moment to savor Mary Sully has arrived New York Times Dakota Sioux artist Mary Sully was the great granddaughter of respected nineteenth century portraitist Thomas Sully who captured the personalities of America s first generation of celebrities including the figure of Andrew Jackson immortalized on the twenty dollar bill Born on the Standing Rock reservation in South Dakota in 1896 she was largely self taught Steeped in the visual traditions of beadwork quilling and hide painting she also engaged with the experiments in time space symbolism and representation characteristic of early twentieth century modernist art And like her great grandfather Sully was fascinated by celebrity over two decades she produced hundreds of colorful and dynamic abstract triptychs a series of personality prints of American public figures like Amelia Earhart Babe Ruth and Gertrude Stein Sully s position on the margins of the art world meant that her work was exhibited only a handful of times during her life In *Becoming Mary Sully* Philip J Deloria reclaims that work from obscurity exploring her stunning portfolio through the lenses of modernism industrial design Dakota women s aesthetics mental health ethnography and anthropology primitivism and the American Indian politics of the 1930s Working in a complex territory oscillating between representation symbolism and abstraction Sully evoked multiple and simultaneous perspectives of time and space With an intimate yet sweeping style Deloria recovers in Sully s work a move toward an anti colonial aesthetic that claimed a critical role for Indigenous women in American Indian futures within and distinct from American modernity and modernism

Marsden Hartley Patricia McDonnell, 1997 Marsden Hartley 1877 1943 one of the most important artists from the American early modern period was part of the heady group surrounding Alfred Stieglitz and his galleries in the early decades of this century While New York and Stieglitz acted as a base of support and friendship for Hartley he constantly shifted from place to place living abroad and in varying locales across the country Marsden Hartley An American Modern traces the artist s movements and the evolution in his thinking and art For the first 40 years of his life Hartley pursued the ideals and philosophical principles of American transcendentalism He shifted radically from this approach after the First World War Instead of embracing subjectivity he honored rational intellect and objectivity Toward the end of his life he returned to a passionate belief in the subjective self Patricia McDonnell analyzes Hartley s beliefs and artistic practice in the context of the cultural and political realities that deeply affected the man and his times

Modern Patricia McDonnell, Marsden Hartley, 2006 World War I and American Art Robert Cozzolino, Anne Classen Knutson, David M. Lubin, 2016-11 World War I and American Art provides an unprecedented look at the ways in which American artists reacted to the war Artists took a leading role in chronicling the war crafting images that influenced public opinion supported mobilization efforts and helped to shape how the war's appalling human toll was memorialized The book brings together paintings drawings prints photographs posters and ephemera spanning the diverse visual culture of the period to tell the story of a crucial turning point in the history of American art *Uniform Fantasies* Jeffrey Schneider, 2023-07-26 Starting in the nineteenth century in Germany colourful military uniforms became a locus for various queer male fantasies fostering an underground sexual economy of male prostitution as well as a political project to exploit the army's prestige for queer emancipation In the first decade of the twentieth century however a series of scandals derailed this emancipatory project Simultaneously public debates began to invoke homosexuality sadism transvestism and other sexological concepts to criticize military policies and practices In pursuing the threads with which queer authors and activists stitched their fantasies about uniforms Jeffrey Schneider offers fresh perspectives on key debates over military secrecy disciplinary abuses in the army and German militarism Drawing on a vast trove of materials ranging from sexological case studies trial transcripts and parliamentary debates to queer activist tracts autobiographies and literary texts *Uniform Fantasies* uncovers a particularly modern set of concerns about such topics as outing closeted homosexuals the presence of gay men in the military and whether men in uniform are more masculine or more insecure about their sexual identity
