to build your own custom bike with to know more of the common utensils you might have in your workshop and the tools for you to work on and build your own custom motorbike rather than just riding. One of the best would be building a motorbike kit. There is nothing like the amount of satisfaction and gratification when you assembled something that came in pieces into your favorite bike. You don't have to find a friend to discipline and instruct you to work through all the challenges and frustrations to move with the end result. God bless, I bet you don't feel happy when the bike finally rolled with its wheels. Bultaco Competition Bikes Owners Workshop Manual Jeffrey Robert Clew, 1987
