**Tough Girls** Sherrie A. Inness, 2018-01-09 Tough girls are everywhere these days Whether it is Ripley battling a swarm of monsters in the *Aliens* trilogy or Captain Janeway piloting the starship Voyager through space in the continuing *Star Trek* saga women strong in both body and mind have become increasingly popular in the films television series advertisements and comic books of recent decades In *Tough Girls* Sherrie A Inness explores the changing representations of women in all forms of popular media and what those representations suggest about shifting social mores She begins her examination of tough women in American popular culture with three popular television shows of the 1960s and 70s *The Avengers* *Charlie's Angels* and *The Bionic Woman* and continues through such contemporary pieces as a recent ad for Calvin Klein jeans and current television series such as *The X files* and *Xena Warrior Princess*

Although all these portrayals show women who can take care of themselves in ways that have historically been seen as uniquely male they also variously undercut women's toughness. She argues that even some of the strongest depictions of women have perpetuated women's subordinate status using toughness in complicated ways to break or bend gender stereotypes while simultaneously affirming them. Marchand, Anne Sisson Runyan, 2024-12-30. In the new edition of this bestselling text and scholarly reference, new and revised chapters reflect shifts in the gendered, classed, racialized, and sexualized nature of ongoing global restructurings. Through fresh intersectional feminist analyses of widening health, climate, care, inequality, democracy, and knowledge crises since the Great Financial Crisis and the deepening of many forms of capitalism, this volume stresses the complexities of multiple restructurings which demand new ways to think across sightings, sites, and resistances. Some of each of these elements are in every chapter, which take the reader to different sightings such as neoliberalizations, neoauthoritarianizations, multipolarizations, financializations, and migrations. They also bring into view different geographic sites such as Hong Kong, sub-Saharan and North Africa, Canada, Mexico, Bangladesh, and the trade blocs of the European Union and the BRICs, and different nongeographic sites such as productive and reproductive economies and the virtual economy of finance and digitalization. They further highlight different forms of women's and feminist resistance such as local and national labor organizing, regional and multipolar organizing, reimagining infrastructure design, and broadening noncapitalist community and solidarity economies. Many chapters critique problematic constructions of women's empowerment and all challenge the machinations of neoliberal capital that undermine most women, marginalized peoples, and the planet. Providing a coherent and challenging approach to contemporary gendered globalization, better understood as global restructurings since the last edition, over a
