Mossberg gun really began in a barn in Chicago Falls, Minnesota, over 20 odd years ago when two highland boys of a Swedish immigrant gun maker began manufacturing a country pistol for the North American trade. In 1893 they and their father trans-

ferred their assets in a small New Haven loft space. They had their father's mechanical ingenuity, their own will to work hard and the most hotly-anticipated investment of a few close friends. Their first model was the "Bronze," a bolt, .22 caliber semi-automatic pocket pistol.

After three years of struggle the first Mossberg rifle appeared. The Model K .22 caliber breech action hammerless repeater. The firm quickly gained a high standing based on its unique and ingenious rifle development, with Mr. Mossberg continually redesigning, improving and checking manufacturing methods. As the reputation grew the three partners incorporated and purchased first one and then a second plant in New Haven, both of which are today operating at capacity.
