## **Motorcycle Helmet Safety Ratings 2012:**

**Global Status Report on Road Safety 2018** World Health Organization, 2019-01-10 The Global status report on road safety 2018 launched by WHO in December 2018 highlights that the number of annual road traffic deaths has reached 1.35 million. Road traffic injuries are now the leading killer of people aged 5–29 years. The burden is disproportionately borne by pedestrians, cyclists, and motorcyclists, in particular those living in developing countries. The report suggests that the price paid for mobility is too high, especially because proven measures exist. Drastic action is needed to put these measures in place to meet any future global target that might be set and save lives.

**Introduction to Public Health** Mary-Jane Schneider, 2020-03-06 Introduction to Public Health, Sixth Edition, offers a thorough, accessible overview of the expanding field of public health for students new to its concepts and actors. Written in engaging, nontechnical language, this text explains in clear terms the multidisciplinary strategies and methods used for measuring, assessing, and promoting public health.

**Global Status Report on Road Safety 2015** World Health Organization, 2015-12-17 The Global status report on road safety 2015, reflecting information from 180 countries, indicates that worldwide the total number of road traffic deaths has plateaued at 1.25 million per year, with the highest road traffic fatality rates in low-income countries. In the last three years, 17 countries have aligned at least one of their laws with best practice on seat belts, drink driving, speed, motorcycle helmets, or child restraints. While there has been progress towards improving road safety legislation and in making vehicles safer, the report shows that the pace of change is too slow. Urgent action is needed to achieve the ambitious target for road safety reflected in the newly adopted 2030 Agenda for Sustainable Development: halving the global number of deaths and injuries from road traffic crashes by 2020. Made possible through funding from Bloomberg Philanthropies, this report is the third in the series and provides a snapshot of the road safety situation globally, highlighting the gaps and the measures needed to best drive progress.
