The Qualified Student Harold S. Wechsler, 2017-09-29 In The Qualified Student Harold S Wechsler focuses on methods of student selection used by institutions of higher education in the United States More specifically he discusses the way that college and university reformers employed those methods to introduce higher education into a broader cross section of America by extending access to an increased number of students from nontraditional backgrounds Implicit in much of this book is an underlying social and ethical question How legitimate was and is higher education s regulation of social mobility Public concern over colleges and universities practices became inevitable once they became regulators between social classes The challenging of colleges admissions policies in the courts augments similar concerns that have been present in legislatures for decades The volume is divided into three main sections Prerequisites Columbia and the Selective Function and Implications It focuses mainly on four universities The University of Michigan Columbia University the University of Chicago and the City University of New York Wechsler maintains that unlike other universities these institutions were pacesetters they did not adopt a new policy simply because some other college had already adopted it A new introduction brings the book originally published in 1977 up to date and demonstrates its continuing importance in today s academic world of selective admissions

*Earning Admission* Greg Kaplan, 2016

There is a crisis that millions of families face each fall: how to get their child into highly selective colleges. In 2014, the Ivy League received almost 250,000 applications for 14,000 spots, while one of the top public universities, UCLA, received over 85,000 applicants for 5,800 spots in its freshman class. This crisis spirals out of control as the number of applicants from the U.S. and abroad skyrockets. Whether your child dreams of attending Harvard or UCLA, *Earning Admission* is the blueprint that empowers your child to use strategic planning and marketing to stand out amongst a sea of applicants and earn admission. This step-by-step guide to earning admission teaches how your child can select and take classes in high school to stand out from other students. How your child can dramatically increase her odds of admission by strategically choosing a major. How your child can write a personal statement that sets her apart from other applicants by demonstrating perspective, passion, and maturity. How your child can build a slate of extracurricular activities that admissions officers value. How your child can secure hundreds of thousands of dollars of merit scholarships or need-based grants, even if your family earns over 100,000 per year. Greg Kaplan is a college application strategist that focuses on building compelling application themes that persuade admissions officers to highly consider an applicant. He focuses on marketing an applicant's unique skills, passions, and strengths. Greg is a graduate of the University of Pennsylvania Wharton School of Business. He lives in Newport Beach, California.
