Kur Of Gor Gorean Saga 28:

Kur of Gor - Special Edition John Norman, 2013-03 John Norman's epic Gorean Saga is one of the longest running and most successful series in the history of fantasy. It is also one of the most controversial. Over the course of more than thirty books produced over a span of six decades, the series has sold millions of copies and built legions of fans unrivaled in their devotion. E Reads invites you to rediscover this brilliantly imagined world where men are masters and women live to serve their every desire. **KUR OF GOR Book 28** of the Gorean Saga. Once it seems the Kur race had a planet of its own but somehow, apparently by their own hands, it was rendered unviable, either destroyed or desolate. So they searched for a new home and found not one but two suitable planets. Planets they set their minds to conquering. But these planets, Earth and its sister planet Gor, the Counter Earth, were not undefended. Four times have the Kur attempted their conquest, only to be beaten back by the mysterious Priest Kings, rulers of Gor. As the Kurii lurk deep within an asteroid belt, awaiting the chance to seize their prize, their attention is drawn to a human, **Tarl Cabot**. Tarl was once an agent of Priest Kings but is now their prisoner, held captive in a secret prison facility. But what is their interest in Tarl Cabot? Read the entire saga now with brilliant new cover art, specially commissioned by E Reads.

The Totems of Abydos John Norman, 2014-04-01 On a primitive planet, the missing link may be the aliens living there. In this novel of discovery and danger from the author of the Gorean Saga, in a far off future, two anthropologists, gross, powerful, dissolute Emilio Rodriguez and aspiring young naïve Allan Brenner, who unbeknownst to himself carries ancient genes of a sort no longer welcome on Home World, have been assigned to conduct a study on Abydos, a deeply forested wilderness planet of little note whose only evidence of civilization is a single enclave, small, rough, dingy Company Station, a fueling station occasionally utilized by star freighters. Within the forest, some days from Company Station, are the Pons, a group of small simian-type organisms that seem near the crossroads between animal and rational creature, between nature and culture. They would appear to constitute an ideal object of study with respect to the origins and foundations of civilization. How it came about, so to speak, that something once emerged from the lair or cave that was so radically different. What lies at the beginning? The results of the study have already been politically prescribed on Home World: that the Pons are to shed light on humanity, that it is in its original and unspoiled nature, polite, sweet, kind, deferent, diffident, social, noncompetitive, and innocent. Both Rodriguez and Brenner have a trait in common, however, which may explain why they have been sent exiled in a sense to such an out-of-the-way locale. Both seek the truth. They enter the forest.

The Calpa & Notes Pertaining to a Panel in Salon D John Norman, 2014-04-01 From the author of the Gor Series, two science fiction short stories exploring human relationships with verbal flair and philosophical complexity. **The Calpa** attempts to describe the indescribable and paints an image of a thing unseen and ancient along the beach of a tiny village. **Notes Pertaining to a Panel in Salon D** presents a lively Science Fiction convention panel exploring what life would be like if prehistory and evolution had skipped a beat. Available for the first time as an e-book, pairing these stories were previously
