

Catherine Dufour Kurt Cobain contre Dr. No

Je vois les choses de façon si aiguë... Si je me casse les yeux, je peux voir des petites traces de résidus blancs dans le coin externe de mes yeux. Ou alors une conjonctivite. Je peux les suivre tandis que mon sang descend, c'est comme regarder un film avec des lentilles ou de la gelée, comme observer du plancton au microscope. Et si je regarde en direction du soleil, le flottement orange vif dessine le tracé intense de cellules sanguines, ou ce que j'imagine être des cellules sanguines qui bougent très rapidement et je ne tiens pas longtemps avant que mes yeux ne se fatiguent, et je dois détourner le regard du soleil et me frotter les paupières très fort. Je vois de petites sphères de lumière étincelantes dans l'air, ils appellent ça des étoiles — qui ne durent qu'un instant, puis j'ouvre mes yeux mouillés de larmes à nouveau et regarde le ciel, loin du soleil, et oui, il y a toujours de petites traces de résidus blancs dans le coin externe de mes yeux.

Coarseness in U.S. Public Communication Philip Dalton, Eric Mark Kramer, 2012-08-31 Public expression in the United States has become increasingly coarse Whether it's stupid rude base or anti intellectual talk it surrounds us Popular television film music art and even some elements of religion have become as coarse we argue as our often disparaged political dialogue This book's contention is that the U.S. semantic environment is governed by tactics not tact We craft messages that work that perform their desired function We are instrumental strategic communicators As such entertainment and journalism that draw an audience for instance are good This follows the logic that the marketplace an aggregate of hedonically motivated individuals decides what's good Market logic when unencumbered by

what some characterize as quaint human sentimentalities liberates us to cynically communicate whatever and however we want Whatever improves ratings web traffic ticket sales concession sales repeat purchases and earnings is good Embracing this communicative paradigm more fully necessitates the culture's abandonment of collective notions of both taste and veracity thus weakening the forces that keep individual desires in check Our present communication environment is one that invites the hypertrophic expression of the ego enabling elites to erode public communication standards and repeal laws and regulations resulting in immeasurable individual fortunes Meanwhile perpetual plutocratic rule is made even more certain by the cacophonous public noise the rest of us are busy making leaving us incapable disinterested and unwilling to listen to one another

Blasco,2013-10-01 El año 1990 inauguró una nueva década la que nació con la caída del Muro de Berlín y murió a la vez que la malograda Lady Di. Quienes entonces fueron adolescentes lo vieron y disfrutaron todo. Adoptaron nuevos íconos, modas, tendencias y formas de ocio; incluso comenzaron a aburrirse de tenerlo todo hecho. Entre la ingenuidad y la rebeldía crecieron, se enamoraron y mostraron una postura escéptica y desconfiada ante los valores tradicionales que les valió la etiqueta de Generación X.
