Kzn Economics Paper 2 Prelim 2014:

Boko Haram's Terrorism and the Nigerian State Olumuyiwa Temitope Faluyi, Sultan Khan, Adeoye O. Akinola, 2019-03-08

This book assesses the effectiveness of Nigeria's counterterrorist policies against Boko Haram. It takes a critical review of the interventionist strategies adopted by the Nigerian government, highlights the motivations behind the choice of strategies, and proffers a deeper understanding of the factors responsible for the state's inability thus far to rid the country of terrorism. Specifically, it evaluates the NACTEST policy framework that guides the Nigerian state's counterterrorist strategies, which contains both hard and soft power approaches. Adopting historical and case study approaches, which put the Nigerian state and occurrences of violent conflict in context, it takes cognizance of the politics of ethno-religious diversity, which reinforces violent conflicts among groups and against the state, and reviews the socio-economic and political realities that led to the emergence and sustenance of Boko Haram. The volume concludes by suggesting practical policy options for combating Boko Haram and other similar armed insurrection. This book is appropriate for researchers and students interested in African politics, conflict, security, peace studies, terrorism, and counterterrorism, as well as policy makers and government departments dealing with terrorism and counterterrorism.

India-Africa Economic Relations in the New Global Economy Rick Rowden, 2025-03-18. While there have been many books about China's growing economic role in Africa, this book explores the much less well-known story of India's growing economic role in Africa. And like the big debates about China's role in Africa, this book similarly asks if India is acting as a helpful development partner in Africa, an exploitative new colonizer, or if the answer ultimately has to do with the degree of agency exercised by African governments. While the book documents the significant increase in Indian aid, trade, and FDI in Africa in the new millennium, it also offers much more. It comprehensively looks at theories of economic development, the debates about the role of trade and industrial policies in economic development, strategies, colonial and post-colonial literature, and controversial features of today's global political economy as the background to study Africa and frames Africa-India economic relations in these broad contexts. The book reviews the history of India's diplomacy, trade, and investment in African countries since decolonization, with a focus on the increased economic ties of the past two decades. The main question examined is about the long-term impact that India's economic relations are having in African economies and if India is helping Africa to successfully develop over time or not. The author examines India's economic and strategic interests in the African region and offers a comparative analysis of Africa's trade with India, China, the European Union, and other African nations. The book also explores a number of outstanding issues in India-Africa relations today, such as Africa's role as a source of oil, gas, and critical minerals needed by India, the lifesaving role of Indian generic medicines across the continent, the nature of the agricultural development model that India is introducing in Africa, and key areas where Indian and African governments are cooperating in the international arena. The book offers a critical and in-depth look into the partnerships India has developed with African countries and contributes to the debate on

economic relations between a more developed emerging market like India and less developed countries A major contribution to the emerging area of South South economics this book part of the Critical Political Economy of South Asia series will be useful for scholars and researchers of economics development economics development studies public policy diplomacy African studies political economy South Asian economics and international politics and trade
