Homeschooling High School Shirley Erwee, 2014-08-28 Prospective homeschoolers are parents looking for an alternative to the mainstream educational system for their offspring But homeschooling children at high school level strikes fear into even the most dedicated of homeschoolers They need information and answers to their questions And with the current educational and unemployment problems in South Africa young people need clear direction and guidance to help them achieve their goals In addition to exploring the popular ways to gaining a recognised matric certificate outside the formal school system Homeschooling High School also challenges readers to rethink their values particularly the value they place on certification and to consider some unconventional or alternative paths to success In a clearly presented format the book includes advice on legal matters identifying appropriate courses sourcing study material tips on entrepreneurship financing tertiary studies and the testimonies of successful homeschooled graduates Homeschooling High School is a comprehensive guide to plotting a path through high school and beyond *Annual Report* South Africa. Language Contact. Volume 2 Jeroen Darquennes, Joseph C. Salmons, Wim Vandenbussche, 2025-04-21 Targeting a full range of students and scholars this volume provides a total of 50 chapters illustrating the linguistic dynamics and the dynamics of inter individual and societal language contact as well as the dynamics of multidisciplinary language contact studies Fueled by a wealth of data from a rich variety of contact situations its geographically balanced case studies are governed by the triangulation between a focus on language structure and change a sincere drive of sociopolitical and academic agency and the confrontation with an everyday reality that can be unkind to and ignorant of those two factors The volume clearly demonstrates the social relevance of our trade in a time burdened with ecolinguistic challenges *Gaffney's Local Government in South Africa*, 2007

Imagining Multilingual Schools Ofelia García, Tove Skutnabb-Kangas, Maria E. Torres-Guzmán, 2006 This book brings together visions and realities of multilingual schools throughout the world in order to examine the pedagogical socioeducational and sociopolitical issues that impact on their development and success The chapters describe and analyze pedagogical instructional and policy efforts to develop multilingualism through school with different targeted populations immigrant students indigenous peoples traditional minorities majorities and multiethnic multilingual groups Each contribution many written by well known scholars in the field of bilingual and multilingual education affirms the desirability of multilingualism as a societal resource and as a right of individuals while acknowledging the social economic and political differences that make the acquisition of multilingualism easy for some and difficult for others And yet the book focuses on the school as a place of promise and resistance having the potential to preserve recover and expand the world s linguistic diversity The introduction written by the co editors identifies the conceptual threads that are developed throughout the chapters But the chapters themselves remind us of the importance of local conditions despite the global pressures of the 21st century in imagining and creating multilingual educational spaces **Finweek**, 2006-11
