Kottak Mirror For Humanity 8th Edition:

Families Alex Liazos, 2015-12-03 Unlike other family textbooks that mostly emphasize conflicts and problems this book also features the joys and pleasures of family living and its mutually nourishing qualities Its perspective reflects polls surveys and student essays indicating that most people value their families Families everywhere provide love support and sustenance to their members but they do so in many different arrangements Understanding the wide variety of families historically and across cultures gives the student a better basis for understanding how families change and a better grasp of more controversial changes such as the gradual acceptance by Westerners of same sex marriage and child rearing by single people Liazos offers two poignant chapters not found in other texts Family Living Chapter Six focuses on the social value of caregiving and family meals Kin and Community Chapter Seven focuses on relationships among kin and the larger community

Fertility Holidays Amy Speier, 2016-08-09 A critical analysis of white working class North Americans motivations and experiences when traveling to Central Europe for donor egg IVF Each year more and more Americans travel out of the country seeking low cost medical treatments abroad including fertility treatments such as in vitro fertilization IVF As the lower middle classes of the United States have been priced out of an expensive privatized baby business the Czech Republic has emerged as a central hub of fertility tourism offering a plentitude of blonde haired blue eyed egg donors at a fraction of the price Fertility Holidays presents a critical analysis of white working class North Americans motivations and experiences when traveling to Central Europe for donor egg IVF Within this diaspora patients become consumers urged on by the representation of a white Europe and an empathetic health care system which seems nonexistent at home As the volume traces these American fertility journeys halfway around the world it uncovers layers of contradiction embedded in global reproductive medicine Speier reveals the extent to which reproductive travel heightens the hope ingrained in reproductive technologies especially when the procedures are framed as holidays The pitch of combining a vacation with their treatment promises couples a stress free IVF cycle yet in truth they may become tangled in fraught situations as they endure an emotionally wrought cycle of IVF in a strange place Offering an intimate first hand account of North Americans journeys to the Czech Republic for IVF Fertility Holidays exposes reproductive travel as a form of consumption which is motivated by complex layers of desire for white babies a European vacation better health care and technological success

Contemporary Cultures and Societies of Latin America Dwight B. Heath, 2002 Featuring 47 essays on recent developments in Latin America and in anthropology this anthology discusses the image and reality of the region the basic principles and practices of anthropology traditional and modern cultures identity and ethnicity relations of power and worldviews Selections were chosen in part for their accessibility jargon is kept to a minimum A bibliographic essay is included There is no index Annotation copyrighted by Book News Inc Portland OR [At Risk of Deprivation](#) Jonas Bergmann, 2023-10-19 This open access book examines how and why various forms of climate im mobilities can impact

people's objective and subjective well-being. Worsening climate impacts are forcing subsistence farmers worldwide to decide between staying or leaving their homes. This mixed methods study analyzes cases of climate-related migration, displacement, relocation, and immobility in Peru's coastal highland and rainforest regions. The results reveal that numerous farmers experienced profound and often negative well-being impacts regardless of whether they stayed or migrated. The higher the structural constraints such as weak governance and the more damaging the climate impacts were, the higher the risk of well-being declines. Additionally, the affected individuals often had limited agency and ability to mitigate losses. These findings challenge the notion of migration as adaptation and emphasize the importance of safeguarding the human rights and security of those affected while addressing loss and damage. Without significant investments in such efforts, climate impacts could sharply diminish the well-being of numerous subsistence farmers worldwide, irrespective of whether they stay or migrate.
